a captive and her coffers drained, England is left in turmoil during the Crusades. After the death of her father in the Holy Land, Lady Marian of Ravenskeep finds herself alone--and at the mercy of men vying for her lands and her beauty. Thrust into games of political intrigue, the sheltered knight's daughter soon learns to trust no one. . . . Afforded a hero's homecoming, Sir Robert of Locksley returns from the Crusades a shattered man. In a country he barely recognizes, one torn apart by treachery and betrayal, he finds in Marian a kindred soul. Their quest for justice will take them into the depths of Sherwood Forest, where the dream of a

new England will be born. . . . "An imaginative and riveting novel, impossible to put down." --Booklist "Robinson expertly evokes the sensations and frustrations of medieval life." --Kirkus "A diverting, delightful book." --Publishers Weekly By Reason of Insanity Dec 13 2020 Stevens takes readers on a harrowing descent into the mind of a mass murderer in this eerily realistic serial-killer novel. At the center of this gripping epic novel of mass murder, pursuit, and psychological terror is Thomas Bishop, a psychotic young killer who believes he is the son of Caryl Chessman, who was executed for rape in California amid intense controversy.

Subjected to unmerciful physical and mental torture from an early age, Bishop kills his mother at the age of ten and is placed in an institution for the criminally insane. He grows to manhood knowing the outside world only through a television screen. At twenty-five, he succeeds in a brilliant escape and change of identity and begins to move across the country, murdering women in particularly gruesome ways. Pursued by reporters, police, and the mob, Bishop manages to elude them all, and the search for him becomes the greatest manhunt in US history. The chilling denouement will hold readers spellbound until the shattering,

unforgettable conclusion.

Predictive Modeling Applications in Actuarial Science: Volume 2, Case Studies in Insurance Aug 09 2020 Predictive modeling uses data to forecast future events. It exploits relationships between explanatory variables and the predicted variables from past occurrences to predict future outcomes. Forecasting financial events is a core skill that actuaries routinely apply in insurance and other risk-management applications. Predictive

Modeling Applications in Actuarial Science emphasizes life-long learning by developing tools in an insurance context, providing the relevant actuarial applications, and introducing advanced statistical techniques that can be used to gain a competitive advantage in situations with complex data. Volume 2 examines applications of predictive modeling. Where Volume 1 developed the foundations of predictive modeling, Volume 2 explores practical uses for techniques, focusing on property and casualty insurance. Readers are exposed to a variety of techniques in concrete, real-life contexts that demonstrate their

value and the overall value of predictive modeling, for seasoned practicing analysts as well as those just starting out. Dear Dawn Oct 23 2021 The chilling autobiography of the notorious female serial killer who was recently the subject of a two-hour Investigation Discovery special. Between 1989 and 1990, Aileen Wuornos, a hitchhiking prostitute, shot, killed, and robbed seven men in remote Florida locations. Arrested in 1991, she was condemned to death on six separate counts and executed by lethal injection in 2002. An abused runaway who turned to prostitution to survive, Wuornos has become iconic of vengeful women who

lash out at the nearest target. She has also become a touchstone for women's, prostitutes', and prisoners' rights advocates. Her story has inspired myriad books and articles, as well as the 2003 movie *Monster*, for which Charlize Theron won an Academy Award. But until now, Wuornos's uncensored voice has never been heard. *Dear Dawn* is Wuornos's autobiography, culled from her ten-year death row correspondence with beloved childhood friend Dawn Botkins. Authorized for publication by Wuornos and edited under the guidance of Botkins, the letters not only offer Wuornos's riveting reflections on the

murders, legal battles, and media coverage, but go further, revealing her fears and obsessions, her rich humor and empathy, and her gradual disintegration as her execution approached. A candid life story told to a trusted friend, *Dear Dawn* is a compelling narrative, unwaveringly true to its source. "It is both empowering and heartbreaking, because Wuornos represents the fury of a wronged girl-gone-wild, whose rage was unleashed on men." —The Rumpus "Condenses ten years of obsessive correspondence into a fragmented, sometimes funny, sometimes nightmarish, often paradoxical portrait of Wuornos." —Muzzle Magazine

Secret Language of Animals Jan 26 2022 Unlock the secrets behind the behavior of the world's most fascinating creatures? from the Adélie penguin to the plains zebra to the giant panda?in this wonderfully written, beautifully illustrated book. In *The Secret Language of Animals*, biologist Janine Benyus takes us inside the animal kingdom and shows us the whys and the hows behind the distinctive behavior of creatures great and small in their natural environments. Divided geographically into five sections?Africa, Asia, North America, the oceans, and the poles?the book examines and describes the behavior, body language, and patterns of

communication of 20 different animals: the gorilla, lion, African elephant, plains zebra, black rhinoceros, giraffe, ostrich, greater flamingo, Nile crocodile, giant panda, peacock, Komodo monitor, bottlenose dolphin, California sea lion, gray wolf, bald eagle, sandhill crane, beluga whale, polar bear, and Adélie penguin. For each animal, Benyus describes and explains basic behaviors (locomotion, feeding, drinking, bathing, grooming, sleeping), communication behavior (greeting, social play, group defense, conflict, aggression/submission, fighting, courtship, copulation), and parenting behavior (birth, care and feeding, teaching,

communal care). The book is illustrated throughout with tender yet precise line drawings that beckon us to the animals and vividly capture everything from changing facial expressions to nurturing postures to playful and aggressive interactions. The text, too, is both intimate and informative, allowing for a deep connection with, and a great admiration for, each one of the animals.

[The Poetical Works of John Trumbull, LL.D.](#) Nov 11 2020 **Enhancing Food Safety** Mar 16 2021 Recent outbreaks of illnesses traced to contaminated sprouts and lettuce illustrate the holes that exist in the system for monitoring problems and preventing foodborne diseases.

Although it is not solely responsible for ensuring the safety of the nation's food supply, the U.S. Food and Drug Administration (FDA) oversees monitoring and intervention for 80 percent of the food supply. The U.S. Food and Drug Administration's abilities to discover potential threats to food safety and prevent outbreaks of foodborne illness are hampered by impediments to efficient use of its limited resources and a piecemeal approach to gathering and using information on risks. *Enhancing Food Safety: The Role of the Food and Drug Administration*, a new book from the Institute of Medicine and the National Research

Council, responds to a congressional request for recommendations on how to close gaps in FDA's food safety systems. *Enhancing Food Safety* begins with a brief review of the Food Protection Plan (FPP), FDA's food safety philosophy developed in 2007. The lack of sufficient detail and specific strategies in the FPP renders it ineffectual. The book stresses the need for FPP to evolve and be supported by the type of strategic planning described in these pages. It also explores the development and implementation of a stronger, more effective food safety system built on a risk-based approach to food safety management. Conclusions and

recommendations include adopting a risk-based decision-making approach to food safety; creating a data surveillance and research infrastructure; integrating federal, state, and local government food safety programs; enhancing efficiency of inspections; and more. Although food safety is the responsibility of everyone, from producers to consumers, the FDA and other regulatory agencies have an essential role. In many instances, the FDA must carry out this responsibility against a backdrop of multiple stakeholder interests, inadequate resources, and competing priorities. Of

interest to the food production industry, consumer advocacy groups, health care professionals, and others, *Enhancing Food Safety* provides the FDA and Congress with a course of action that will enable the agency to become more efficient and effective in carrying out its food safety mission in a rapidly changing world.

In Strength And Shadow Sep 21 2021 Few rugby players have matched the achievements of Welshman Mervyn Davies, the shrewd, gutsy number 8 with the heart of a lion. In what was a remarkable career, he won two Grand Slams, three Triple Crowns, earned thirty-eight consecutive Wales caps, was captain of his national team and played in two victorious Lions tours. From the tail end of the 1960s through the first half of the glorious '70s period, 'Merv the Swerve' - with that

mop of black hair and trademark headband - cut an iconic figure in the world's great rugby arenas. Teammates and opponents respected him, fans loved him and he was a natural leader of men both on and off the field. Then, in March 1976, everything changed. Mervyn was leading Swansea in a semi-final cup clash when he suffered a massive brain haemorrhage. He began that fateful Sunday preparing for just another high-profile game but ended it fighting for his life. Wales, and the watching sporting world, could do nothing but wait and hope. And just when the odds seemed stacked irreversibly against him, Mervyn did what he had

always done: he beat them. Mervyn's life story is one of what was and what might have been. From locker-room tales to the loneliness of rehabilitation, Mervyn's account is funny, moving and honest. He writes about his many highs and lows, about losing rugby but regaining his life, and shares his thoughts on the days he spent in shadow and in strength.

Africa's Greatest

Entrepreneurs Feb 24 2022

Who are the real power brokers in Africa? Who are the dynamic

entrepreneurs making things happen on the continent? How did they do it and what are their personal stories? Africa's Greatest Entrepreneurs is a unique collection of stories about 16 of the most successful entrepreneurs and business visionaries currently operating in Africa. Each chapter is dedicated to a single entrepreneur and focuses on a sometimes tumultuous, often challenging, but mostly exciting journey to success. This fascinating and well-researched book examines the life of each entrepreneur and maps out the path each elected to follow in tackling and overcoming the obstacles that stood in the way of the

realisation of their dreams. Meet, among others, Kagiso Mmusi, the Motswana transport millionaire; Richard Maponya, the South African retail giant behind Soweto's Maponya Mall; Kwabena Adjei, the rags-to-riches Ghanaian millionaire; Wale Tinubu, the Nigerian head of the Oando oil and gas giant; Ndaba Ntsele, the South African king of high finance; and Mo Ibrahim, the Sudanese-born telecoms millionaire. Each story is inspiring and informative in its own unique way. Makura sheds light on the different historical, political and economic power structures that helped create - and in some cases frustrate - these business heroes. The

book shines the spotlight on and provides an unprecedented insight into a new breed of African hero - some of whose stories have never been told until now.

Creating Effective Parenting Plans Nov 23 2021 According to these pediatric psychologists, the best interest of the child calls for a developmentally appropriate parenting plan-that is, custody that accurately reflects the child's physical and psychological development. Even now this concept often faces courtroom challenges as it can conflict with the traditional lawyer-client relationship. This book explores developing alternate

parenting schedules (or custody) with the child's best interest and developmental needs considered first.
