Prospects for the Professions in China Feb 26 2022 Professionals are a growing group in China and increasingly make their presence felt in governance and civil society. At the same time, however, professionals in the West are under increasing pressure from commercialism or scepticism about their ability to rise above self-interest. This book focuses on professionals in China and asks whether developing countries have a fateful choice: to embrace Western models of professional organization as they now exist, or to set off on an independent path, adapting elements of Western practices to their own historical and cultural situation. In doing so, the authors in this volume discuss a wealth of issues, including: the historic antecedents of modern Chinese professionalism; the implications of professionalism as an import in China; the impact of socialism, the developmental state and rampant commercialism on the professions in China; and the feasibility of liberal professions in an illiberal state. To conclude, the book considers whether there might be an emerging professionalism with Chinese characteristics, and how this might have an impact on the professions elsewhere. *Prospects for the Professions in China* will be of interest to students and scholars of Chinese Studies, law, sociology, medical studies and cultural studies.

Dear Dawn Jan 16 2021 The chilling autobiography of the notorious female serial killer who was recently the subject of a two-hour Investigation Discovery special. Between 1989 and 1990, Aileen Wuornos, a hitchhiking prostitute, shot, killed, and robbed seven men in remote Florida locations. Arrested in 1991, she was condemned to death on six separate counts and executed by lethal injection in 2002. An abused runaway who turned to prostitution to survive, Wuornos has become iconic of vengeful women who lash out at the nearest target. She has also become a touchstone for women's, prostitutes', and prisoners' rights advocates. Her story has inspired myriad books and articles, as well as the 2003 movie *Monster*, for which Charlize Theron won an Academy Award. But until now, Wuornos's uncensored voice has never been heard. *Dear Dawn* is Wuornos's autobiography, culled from her ten-year death row correspondence with beloved childhood friend Dawn Botkins. Authorized for publication by Wuornos and edited under the guidance of Botkins, the letters not only offer Wuornos's riveting reflections on the murders, legal battles, and media coverage, but go further, revealing her fears and obsessions, her rich humor and empathy, and her gradual disintegration as her execution approached. A candid life story told to a trusted friend, *Dear Dawn* is a compelling narrative, unwaveringly true to its source. "It is both empowering and heartbreaking, because Wuornos represents the fury of a wronged girl-gone-wild, whose rage was unleashed on men." —*The Rumpus* "Condenses ten years of obsessive correspondence into a fragmented, sometimes funny, sometimes nightmarish, often paradoxical portrait of Wuornos." —*Muzzle Magazine*

In Strength And Shadow Dec 15 2020 Few rugby players have matched the achievements of Welshman Mervyn Davies, the shrewd, gutsy number 8 with the heart of a lion. In what was a remarkable career, he won two Grand Slams, three Triple Crowns, earned thirty-eight consecutive Wales caps, was captain of his national team and played in two victorious Lions tours. From the tail end of the 1960s through the first half of the glorious '70s period, 'Merv the Swerve' - with that mop of black hair and trademark headband - cut an iconic figure in the world's great rugby arenas. Teammates and opponents respected him, fans loved him and he was a natural leader of men both on and off the field. Then, in March 1976, everything changed. Mervyn was leading Swansea in a semi-final cup clash when he suffered a massive brain haemorrhage. He began that fateful Sunday preparing for just another high-profile game but ended it fighting for his life. Wales, and the watching sporting world, could do nothing but wait and hope. And just when the odds seemed stacked irreversibly against him, Mervyn did what he had always done: he beat them. Mervyn's life story is one of what was and what might have been. From locker-room tales to the loneliness of rehabilitation, Mervyn's account is funny, moving and honest. He writes about his many highs and lows, about losing rugby but regaining his life, and shares his thoughts on the days he spent in shadow and in strength.

Enhancing Food Safety Oct 13 2020 Recent outbreaks of illnesses traced to contaminated sprouts and lettuce illustrate the holes that exist in the system for monitoring problems and preventing foodborne diseases. Although it is not solely responsible for ensuring the safety of the nation's food supply, the U.S. Food and Drug Administration (FDA) oversees monitoring and intervention for 80 percent of the food supply. The U.S. Food and Drug Administration's abilities to discover potential threats to food safety and prevent outbreaks of foodborne illness are hampered by impediments to efficient use of its limited resources and a piecemeal approach to gathering and using information on risks. **Enhancing Food Safety: The Role of the Food and Drug Administration**, a new book from the Institute of Medicine and the National Research Council, responds to a congressional request for recommendations on how to close gaps in FDA's food safety systems. **Enhancing Food Safety** begins with a brief review of the Food Protection Plan (FPP), FDA's food safety philosophy developed in 2007. The lack of sufficient detail and specific strategies in the FPP renders it ineffectual. The book stresses the need for FPP to evolve and be supported by the type of strategic planning described in these pages. It also explores the development and implementation of a stronger, more effective food safety system built on a risk-based approach to food safety management. Conclusions and recommendations include adopting a risk-based decision-making approach to food safety; creating a data surveillance and research infrastructure; integrating federal, state, and local government food safety programs; enhancing efficiency of inspections; and more. Although food safety is the responsibility of everyone, from producers to consumers, the FDA and other regulatory agencies have an essential role. In many instances, the FDA must carry out this responsibility against a backdrop of multiple stakeholder interests, inadequate resources, and competing priorities. Of interest to the food production industry, consumer advocacy groups, health care professionals, and others, **Enhancing Food Safety** provides the FDA and Congress with a course of action that will enable the agency to become more efficient and effective in carrying out its food safety mission in a rapidly changing world.

Taiwan and International Human Rights Mar 30 2022 This book tells a story of Taiwan's transformation from an authoritarian regime to a democratic system where human rights are protected as required by international human rights treaties. There were difficult times for human rights protection during the martial law era; however, there has also been remarkable transformation progress in human rights protection thereafter. The book reflects the transformation in Taiwan and elaborates whether or not it is facilitated or hampered by its Confucian tradition. There are a number of institutional arrangements, including the Constitutional Court, the Control Yuan, and the yet-to-be-created National Human Rights Commission, which could play or have already played certain key roles in human rights protections. Taiwan's voluntarily acceptance of human rights treaties through its implementation legislation and through the Constitutional Court's introduction of such treaties into its constitutional interpretation are also fully expounded in the book. Taiwan's NGOs are very active and have played critical roles in enhancing human rights practices. In the areas of civil and political rights, difficult human rights issues concerning the death penalty remain unresolved. But regarding the rights and freedoms in the spheres of personal liberty, expression, privacy, and fair trial (including lay participation in criminal trials), there are in-depth discussions on the respective developments in Taiwan that readers will find interesting. In the areas of economic, social, and cultural rights, the focuses of the book are on the achievements as well as the problems in the realization of the rights to health, a clean environment, adequate housing, and food. The protections of vulnerable groups, including indigenous people, women, LGBT (lesbian, gay, bisexual, and transgender) individuals, the disabled, and foreigners in Taiwan, are also the areas where Taiwan has made recognizable achievements, but still encounters problems. The comprehensive coverage of this book should be able to give readers a well-rounded picture of Taiwan's human rights performance. Readers will find appealing the story of the effort to achieve high standards of human rights protection in a jurisdiction barred from joining international human rights conventions. This book won the American Society of International Law 2021 Certificate of Merit in a Specialized Area of International Law.

□□□ Jul 10 2020 The first publication of the poetry of Liu Xia, wife of the imprisoned Nobel Peace Prize recipient Liu Xiaobo I didn't have a chance to say a word before you became a character in the news, everyone looking up to you as I was worn down at the edge of the crowd just smoking and watching the sky. A new myth, maybe, was forming there, but the sun was so bright I couldn't see it. —from "June 2nd, 1989 (for Xiaobo)" Empty Chairs presents the poetry of Liu Xia for the first time freely in both English translation and in the Chinese original. Selected from thirty years of her work, and including some of her haunting photography, this book creates a portrait of a life lived under duress, a voice in danger of being silenced, and a spirit that is shaken but so far indomitable. Liu Xia's poems are potent, acute moments of inquiry that peel back to expose the fraught complexity of an interior world. They are felt and insightful, colored through with political constraints even as they seep beyond those constraints and toward love.

In **The Secret Language of Animals**, biologist Janine Benyus takes us inside the animal kingdom and shows us the whys and the hows behind the distinctive behavior of creatures great and small in their natural environments. Divided geographically into five sections?Africa, Asia, North America, the oceans, and the poles?the book examines and describes the behavior, body language, and patterns of communication of 20 different animals: the gorilla, lion, African elephant, plains zebra, black rhinoceros, giraffe, ostrich, greater flamingo, Nile crocodile, giant panda, peacock, Komodo monitor, bottlenose dolphin, California sea lion, gray wolf, bald eagle, sandhill crane, beluga whale, polar bear, and Adélie penguin. For each animal, Benyus describes and explains basic behaviors (locomotion, feeding, drinking, bathing, grooming, sleeping), communication behavior (greeting, social play, group defense, conflict, aggression/submission, fighting, courtship, copulation), and parenting behavior (birth, care and feeding, teaching, communal care). The book is illustrated throughout with tender yet precise line drawings that beckon us to the animals and vividly capture everything from changing facial expressions to nurturing postures to playful and aggressive interactions. The text, too, is both intimate and informative, allowing for a deep connection with, and a great admiration for, each one of the animals.

Byzantine Intersectionality Mar 06 2020 "Intersectionality, a term coined in 1989, is rapidly increasing in importance within the academy, as well as in broader civic conversations. It describes the study of overlapping or intersecting social identities such as race, gender, ethnicity, nationality, and sexual orientation alongside related systems of oppression, domination, and discrimination. Together, these frameworks are used to understand how systematic injustice or social inequality occurs. In this book, Roland Betancourt examines the presence of marginalized identities and intersectionality in the medieval era. He reveals the fascinating, little-examined conversations in medieval thought and visual culture around matters of sexual and reproductive consent, bullying, non-monogamous marriages, homosocial and homoerotic relationships, trans and non-binary gender identifications, representations of disability, and the oppression of minorities. In contrast to contemporary expectations of the medieval world, this book looks at these problems from the Byzantine Empire and its neighbors in the eastern mediterranean through sources ranging from late antiquity and early Christianity up to the early modern period. In each of five chapters, Betancourt provides short, carefully scaled narratives used to illuminate nuanced and surprising takes on now-familiar subjects by medieval thinkers and artists. For example, Betancourt examines depictions of sexual consent in images of the Virgin; the origins of sexual shaming and bullying in the story of Empress Theodora; early beginnings of trans history as told in the lives of saints who lived portions of their lives within different genders; and the ways in which medieval authors understood and depicted disabilities. Deeply researched, this is a groundbreaking new look at medieval culture for a new generation of scholars"--

Bunuel's method is free from all artifice, and his honesty and humour are to extreme to accept any compromise in exposing our deceit and our decadence. Like Pasolini, his work offers a remarkably sophisticated political analysis, but remains based in the essentially peasant values of storytelling, and the purposefully unsystematic supervisions of laughter.
