A Tudor Tragedy May 26 2022 The Queen was accused of having been a woman of "abominable carnal desires" who had craftily and traitorously misled her royal spouse into believing she was "chaste and of pure, clean, and honest living." Worse still, she had followed "daily her frail and carnal lust" and had actually "conspired, imagined, and encompassed" the final destruction of the King. This book is an analysis of a life and a multitude of circumstances that culminated in violent death; a study of how chance and personality, morality and adultery, deliberate malice and good intentions, when operating within the limits set by environment, can create a single act in time, the swift descent of the executioner's axe.

Chariots of Ladies Jan 10 2021 In *Chariots of Ladies*, Núria Silleras-Fernández traces the

development of devotion and female piety among the Iberian aristocracy from the late Middle Ages into the Golden Age, and from Catalonia to the rest of Iberia and Europe via the rise of the Franciscan Observant movement. A program of piety and morality devised by Francesc Eiximenis, a Franciscan theologian, royal counselor, and writer in Catalonia in the 1390s, came to characterize the feminine ideal in the highest circles of the Iberian aristocracy in the era of the Empire. As Eiximenis's work was adapted and translated into Castilian over the century and a half that followed, it became a model of devotion and conduct for queens and princesses, including Isabel the Catholic and her descendants, who ruled over Portugal and the Spanish Empire of the Hapsburgs. Silleras-Fernández uses archival documentation, letters, manuscripts, incunabula, and a wide range of published material to clarify how Eiximenis's ideas on gender and devotion were read by Countess Sanxa Ximenis d'Arenós and Queen Maria de Luna of Aragon and how they were then changed by his adaptors and translators in Castile for new readers (including Isabel the Catholic and Juana the Mad), and in sixteenth-century Portugal for new patronesses (Juana's daughter, Catalina of Habsburg, and Catalina's daughter, Maria Manuela, first wife of Philip II). *Chariots of Ladies* casts light on a neglected dimension of encounter and exchange in Iberia from the late fourteenth to the mid-sixteenth centuries.

Renaissance Feminism Dec 21 2021 Considering a wide range of Renaissance works of

nonfiction, Jordan asserts that feminism as a mode of thought emerged as early as the fifteenth century in Italy, and that the main arguments for the social equality of the sexes were common in the sixteenth century. Renaissance feminism, she maintains, was a feature of a broadly revisionist movement that regarded the medieval model of creation as static and hierarchical and favored a model that was dynamic and relational. Jordan examines pro-woman arguments found in dozens of pan-European texts in the light of present-day notions of authority and subordination, particularly resistance theory, in an attempt to link gender issues to larger contemporary theoretical and institutional questions. Drawing on sources as varied as treatises on marriage and on education, defenses and histories of women, popular satires, moral dialogues, and romances, *Renaissance Feminism* illustrates the broad scope of feminist argument in early modern Europe, recovering pro-woman arguments that had disappeared from the record of gender debates and transforming the ways in which early modern gender ideology has been understood. Renaissance scholars and feminist critics and historians in general will welcome this book, and medievalists and intellectual historians will also find it valuable reading.

'Triumphs of English' Sep 17 2021 One of the few authors from the ranks of the nobility during the first half of the sixteenth century, Henry Parker, Lord Morley (c.1481-1556) is an undeservedly neglected figure, whose rehabilitation this volume sets out to accomplish. Morley was the first Tudor writer to render Petrarch's *Trionfi* into English verse, he set about imitating the "Italian Ryme called Soneto", and he translated Plutarchian Lives into English decades before any other writer attempted to do so. Indeed his career forms a context against which to read the accomplishments of the much better known Henrician

writers Sir Thomas Wyatt and the Earl of Surrey. He presented his translations each year as New Year's gifts to those he wished to please, individuals as diverse as Henry VIII himself, the King's daughter Mary, and Thomas Cromwell. To Mary he wrote in praise of orthodoxy whilst to Henry and Cromwell he condemned the pope in no uncertain terms. When Parker's own daughter, the widow of George Boleyn, Lord Rochford was beheaded as an accomplice to Catherine Howard, he responded by translating Boccaccio's *De claris mulieribus* and suggesting this text stand as a model for those ladies at Court whose behaviour was less than exemplary. As these essays show, Morley was a kind of mirror of the ways in which the Tudor nobility functioned in a world wracked by faction and discord. *Triumphs of English* is a deeply interdisciplinary collection and has contributions by leading historians, cultural critics and literary scholars: David Starkey, James P. Carley, Julia Boffey, A.S.G. Edwards, K.R. Bartlett, Richard Rex, Jeremy Maule, David R. Carlson, James Simpson, Marie Axton, Suzanne Woods, and Richard Axton. It also includes editions of hitherto unpublished writings by Morley, one of which has long been lost. The result is a richly interconnected whole, each essay discrete in itself, but also reflecting and illuminating the others.

The collection also deals with a

number of literary representations of earlier historical queens such as Cleopatra, and semi-historical ones such as Gertrude, Tamora, and Lady Macbeth, and such fictional ones as Hermione and the queen of Cymbeline, all of them Shakespeare characters. This fascinating look at Renaissance queens also examines myth and folklore, Romantic or Victorian representations, and the depictions of queens like Catherine de Medici of France in twentieth century film.

Catherine de Medici Nov 07 2020 The bestselling revisionist biography of one of the great women of the 16th century Orphaned in infancy, Catherine de Medici was the sole legitimate heiress to the Medici family fortune. Married at fourteen to the future Henri II of France, she was constantly humiliated by his influential mistress Diane de Poitiers. When her husband died as a result of a duelling accident in Paris, Catherine was made queen regent during the short reign of her eldest son (married to Mary Queen of Scots and like many of her children he died young). When her second son became king she was the power behind the throne. She nursed dynastic ambitions, but was continually drawn into political and religious intrigues between Catholics and Protestants that plagued France for much of the later part of her life. It had always been said that she was implicated in the notorious Saint Bartholomew's Day Massacre, together with the king and her third son who succeeded to the throne in 1574, but was murdered. Her political influence waned, but she survived long enough to ensure the succession of her son-in-law who had married her daughter

Margaret.

English Women's Poetry, 1649-1714 May 02 2020 Based on extensive archival research in England and the United States, *English Women's Poetry, 1649-1714* argues that ideas about women's voices and women's communities were crucial to the shaping of an English national literature after the civil wars. Women enter print culture - as poets and as women - by situating their writing in defence of embattled monarchy. Women poets are especially fascinated with the figure of the female monarch (both real and mythic).

Sonnets and the English Woman Writer, 1560-1621 Feb 20 2022 This study explores why women in the English Renaissance wrote so few sonnet sequences, in comparison with the traditions of Continental women writers and of English male authors. Catherine Parr Dec 29 2019 Romantic, chaotic and terrifying, Catherine Parr's life unfolds like a romance novel. Married at seventeen to the grandson of a confirmed lunatic and widowed at twenty, Catherine chose a Yorkshire lord twice her age as her second husband.

Caught up in the turbulent terrors of the Pilgrimage of Grace in 1536, she was captured by northern rebels, held hostage and suffered violence at their hands. Fleeing to the south shortly afterward, Catherine took refuge in the household of Princess Mary and in the arms of the king's brother-in-law, Sir Thomas Seymour. Her employment in Mary's household brought her to the attention of Mary's father, the unpredictable, often-wed Henry VIII. Desperately in love with Seymour, Catherine was forced into marriage with a king whose passion for her could not be hidden and who was determined to make her his queen.

Spenser's Heavenly Elizabeth Sep 25 2019 This book reveals the queen behind Edmund Spenser's *The Faerie Queene*. Placing Spenser's epic poem in the context of the tumultuous sixteenth century, Donald Stump offers a groundbreaking reading of the poem as an allegory of Elizabeth I's life. By narrating the loves and wars of an Arthurian realm that mirrors Elizabethan England, Spenser explores the crises that shaped Elizabeth's reign: her break with the pope to create a reformed English Church, her standoff with Mary, Queen of Scots, offensives against Irish rebels and Spanish troops, confrontations with assassins and foreign invaders, and the apocalyptic expectations of the English people in a time of national transformation. Brilliantly reconciling moral and historicist readings, this volume offers a major new interpretation of *The Faerie Queene*.

Writing Religious Women Sep 05 2020 This collection of commissioned essays explores women's vernacular theology through a wide range of medieval prose and verse texts, from saints' lives to visionary literature. Employing a historicist methodology, the essays are sited at the intersection of two discursive fields: female spiritual practice and female textual practice. The contributors are primarily interested in the relation of women to religious books, as writers, receivers, and as objects of representation. They focus on historical approaches to the question of women's spirituality, and generically unrestricted examinations of issues of female literacy, book ownership, and reading practice. The essays are grouped under four main themes: the influence of anchoritic spirituality upon later lay piety, Carthusian links with female spirituality, the representation of femininity in Anglo-Norman and Middle English religious poetry, and veneration, performance and delusion in the Book of Margery Kempe.

Fruit of the Orchard Aug 24 2019 Fruit of the Orchard sheds light on how Catherine of Siena served as a visible and widespread representative of English piety becoming a part of the devotional landscape of the period. By analyzing a variety of texts, including monastic and lay, complete and excerpted, shared and private, author Jennifer N. Brown considers how the visionary prophet and author was used to demonstrate orthodoxy, subversion, and heresy. Tracing the book tradition of Catherine of Siena, as well as investigating the

circulation of manuscripts, Brown explores how the various perceptions of the Italian saint were reshaped and understood by an English readership. By examining the practice of devotional reading, she reveals how this sacred exercise changed through a period of increased literacy, the rise of the printing press, and religious turmoil.
