Emotionally Intelligent Leadership for Students 04 2020 The Emotionally Intelligent Leadership for Students: Workbook is a "working book" that brings further understanding and relevancy to the Emotionally Intelligent Leadership for Students (EILS) model. It includes modularized learning activities for each capacity, as well as case studies and resources for additional learning. It is designed to be used as part of a facilitated classroom workshop, either as follow-up to taking the EILS Inventory or as a supplement to the book Emotionally Intelligent Leadership: A Guide for Coaches and Students.

Essential Skills: Customer Service Vocabulary Building Workbook 01 2022 This workbook is an important teaching tool for those learning English as a second language and anyone who wants to pursue a career in customer service. By building your customer service vocabulary, you'll be able to develop the vocabulary and vocational skills you need to become successful; improve your reading and oral communication skills; enhance your critical thinking and problem solving skills; boost your spelling and phonics skills. The workbook's ninety-two exercises help you build work-specific and job related vocabulary. Master your understanding of almost three hundred words with easy-to-follow exercises such as reading comprehension, applying the meaning, filling in the blanks, and more. You'll also find fun activities such as word searches, crosswords, and analogies. In addition to learning a robust customer service vocabulary, you'll also apply synonyms and antonyms that will help you in a customer service environment. Whether you're on the career on the fast track or, if you are a teacher, find an important resource so your students can learn the skills that matter most with Essential Skills: Customer Service Vocabulary Building Workbook.

Introduction to Psychology May 26 2022 Featuring a look and style that's more like a magazine than a textbook, Plotnik's INTRODUCTION TO PSYCHOLOGY, Tenth Edition will draw you in and show you how exciting the study of psychology can be. This modular, visual approach to the fundamentals of psychology--the pioneer of the visual or magazine style approach--makes even the toughest concepts engaging and entertaining, and every page is individually planned, written, and formatted to effectively incorporate the use of Visual Cues, which help you to better retain information. Extensively updated, the text also utilizes chunking, a method of breaking concepts down into small, easily digested sections that you can learn at your own pace. Ancient Greek Sep 02 2022 In this elementary textbook, Philip S. Peek draws on his twenty-five years of teaching experience to present the Greek language in an imaginative and accessible way that promotes creativity, deep learning, and diversity. The course is built on three pillars: analysis, and logic. Readers memorize the top 250 most frequently occurring ancient Greek words, the essential word endings, the eight parts of speech, and the grammatical concepts they will most frequently encounter when reading authentic ancient texts. Analysis and logic exercises enable students to translate and parsing of genuine ancient Greek sentences, with compelling reading selections in English and in Greek offering starting points for discussion, contemplation, debate, and reflection. A series of embedded Learning Tips help teachers and students to think in practical and imaginative ways about how they learn. This combination of memory-based learning and concept- and skill-based learning gradually builds the confidence of the reader, teaching them how to learn by guiding them from a familiarity with the basics to proficiency in reading this beautiful language. Ancient Greek: A Century Approach is written for high-school and university students, but is an instructive and rewarding text for anyone who wishes to learn ancient Greek.

Psychology: Modules for Active Learning Aug 18 2021 PSYCHOLOGY: MODULES FOR ACTIVE LEARNING is a best-selling text by renowned author and educator Dennis Coon and co-authors John O. Mitterer and Tanya Martini. This fourteenth edition continues to combine the highly effective SQ4R (Survey, Question, Read, Recite, Reflect, Review) active learning system, an engaging style, appealing visuals, and detailed coverage of current and cutting-edge research in one remarkable, comprehensive text. Fully updated, the new edition builds on the proven modular format and offers a variety of teaching and learning tools integrated throughout the text. While the text provides a broad overview of essential psychology topics ideal for introductory courses, its modular design also readily supports more specialized curricula, allowing instructors to use the self-contained instructional units in any combination and order. Focus on Reproduction, Mentor Guide May 06 2020 This is the Mentor's Guide for TUMI's Capstone Module 12 English course, Focus on Reproduction, which is one of 16 modules in the Capstone Curriculum. This book is intended to be purchased by TUMI satellites, mentors, or coordinators for use within a TUMI Satellite. The Quizzes, Final Exam, and Answer Keys for this module can be found on the TUMI Satellite Guide (this is available to all approved TUMI satellites). The Urban Ministry Institute (TUMI) is a ministry of World Impact, Inc. TUMI Satellites are a part of the TUMI Network, where leaders are developed in the local church using TUMI's curriculum and training system. As twenty-first century disciples of Jesus in the cities of America, we desire to be fruitful in the work of God, ministering to the lost, and advancing the Kingdom of Christ (John 1:9). God has commanded that we bear abundant lasting fruit in our generation, taking the Good News of Christ's love to the very ends of the earth. This mandate is valid till the return of Christ; we are called to evangelize the lost, equip the redeemed, and empower new generations to become disciples in the communities where they live and work. In this module we explore the vision of evangelism, discipleship, and church planting in the city. We affirm the lordship of Jesus Christ, who as risen Lord and God's anointed Messiah, has been exalted to the position of head over all things in heaven and as Lord of the harvest. As Lord, he calls us to penetrate our oikos (household networks) in urban, cross-cultural evangelism. Through the proclamation of the Gospel in our webs of common kinship relationships, friendships, and associations, we can win others in urban America. This course also covers the idea of equipping new believers through the idea of follow-up, or incorporating new disciples in to the Church. Arguing that the Church is God's instrument of bringing new Christians to maturity, it discusses follow-up and discipleship as the way to ground Christians in the faith. Finally, we will explore the importance of church planting, and the critical role of training leaders to empower them for multiplication. This module concludes with a solid vision of a godly urban church which can be God's agent of change and freedom in its community, in Jesus' name.

Policies for Use of Changeable Message Signs in Highway Work Zones 2019 Portable Changeable Message Sign (PCMS) systems used in work zones are programmable supplementary traffic control devices that display messages composed of letters, symbols or both and provide instructions to the traveling public approaching work zone activities. The study seeks to develop warrants and criteria for PCMS deployment in highway work zones. It is recommended that PCMS systems be used during long- and intermediate-term stationary work, for traffic control in incident areas, and in projects where advance-time notification is needed. The discussion focuses on spacing criteria, number of signs required, visibility and message legibility, text alignment, distance criteria, message length, duration and type, project-level operational guidelines, message storage and dissemination, repair, maintenance and utility costs, as well as control and coordination issues. The study concludes that additional research is needed in order to: develop a comprehensive standardized statewide database of messages and message abbreviations; develop a comprehensive repository with information about the technology of the various components of the PCMS units; coordinate PCMS units used in highway work zones with a corridor or regional ATMS system; and maintain information about the use of a PCMS unit in a work zone project and possibly integrate other relevant information in a management system.
