Hadoop can help you tame the data beast. Effective use of Hadoop however requires a mixture of programming, design, and system administration skills. "Hadoop Beginner's Guide" removes the mystery from Hadoop, presenting Hadoop and related technologies with a focus on building working systems and getting the job done, using cloud services to do so when it makes sense. Aermacchi May 29 2022 This book is the third in the Redline books Enthusiasts Series. It tells the story of one of Italy's premiere post-war marques. With a history steeped in aviation, including the MC72 World Speed Record holder and World War II fighters, Aermacchi began building motorcycles in 1950. At the 1956 Milan Show, the futuristic Chimera, an ohv horizontal single with enclosed bodywork was launched. Later in the decade the Chimera was 'undressed' to create some of Italy's best sports and racing machines, including the Ala Verde and the Ala d'Oro. In 1960 Harley Davidson bought 50% of Aermacchi, and then in 1978 the Varese factory was sold to Cagiva. A number of Aermacchi personalities have contributed to this book, giving it additional authority.

American Pickers Guide to Picking Jan 01 2020 A true adventure story and the go-to guide for "picking" American treasures from anyone's backyard, straight from the stars of History's *American Pickers* In these pages, professional treasure hunters Mike Wolfe and Frank Fritz chronicle their road trips across the American countryside in search of "rusty gold" to buy and sell among the picking world's one-of-a-kind characters. Whether you are a fan of the show or just like finding hidden riches, you will love seeing what Wolfe and Fritz dig up and enjoy meeting the devoted collectors, extreme

stockpilers, and elite dealers who they encounter along the way. Wolfe and Fritz do not deal in fine antiques. Their secondhand treasures are of the down-and-dirty and sometimes even bizarre variety, from old bicycles and vintage tools, to sun-bleached cars and handmade furniture, retired carnival games and unusual taxidermy. Assisted by Danielle Colby, who helps out at Antique Archaeology, Wolfe and Fritz buy on the cheap and then sell to dealers, art directors, interior designers, or anyone looking for a little bit of authentic Americana. The three now share their secrets to finding hidden gems, offering helpful hints that will show what average Americans can do to find the treasures that await them. From *American Pickers Guide to Picking: Junk is Beautiful* When we knock on a door, 90 percent of the time the things we find are junk. But we don't care about the odds; a picker never turns down an opportunity, no matter where it is. We've picked pickup trucks. We've picked flat beds. We've picked dumpsters. We even picked a Mercury Sable. We're looking for the unusual, the impossible, the funky, the different, the bizarre-things we have never seen before. And we'll go anywhere we have to go to find it. No location is off-limits to a hard-core picker. And there's plenty of things to be found at antique stores, thrift and consignment shops, flea markets, estate sales, and swap meets, and a lot of the tips in this book apply to finding treasures at these joints. But that's not really the kind of picking we do anymore. We look outside the box to find our junk—a word we use almost like a term of endearment: to us: junk is beautiful.
