**The New Testament Logia on Divorce** Apr 27 2022 "The New Testament on marriage and divorce has exercised a deep influence upon Western civilisation. This is especially the case with the logia on divorce which are recorded in the Gospels of Matthew v. 32, XIX 3—12, Mark X. 2—12 and Luke XVI. 18. The Apostle Paul deals with the subject in 1 Corinthians VII. 1—15. Within the Christian churches the statements in these texts are considered authoritative concerning the questions of whether or not marriage is indissoluble, and whether divorce and remarriage are allowed for one or several reasons. The purpose of this study is to examine the interpretation of the New Testament divorce texts during the Reformation period. The significance of the exegetical results achieved by the reformers can be appreciated only in the light of the medieval sacramental concept of marriage and the work of the Christian humanists; accordingly, the investigation begins with an examination of these two subjects, as well as the reaction of Roman Catholic exegetes to the interpretation of Erasmus. The interpretations of Luther and his associates and those of the prominent Reformed theologians follow. The works of representative English theologians have been studied, beginning with Willian Tyndale and Thomas Cranmer and ending with John Milton, whose works on divorce from an exegetical point of view terminate a period during which the meaning of the divorce texts was explored." -From the Foreword

**Morality After Calvin** Jun 05 2020 In *Morality After Calvin*, Kirk M. Summers examines the development of ethical thought in the Reformed Orthodox tradition immediately following the death of Calvin. Framed around a previously unstudied poetic work of French theologian Theodore Beza, the *Cato Censorius Christianus* (1591), and read in conjunction with the works and correspondence of Beza and his colleagues, the book reveals the theoretical underpinnings of the disciplinary activity during the period. The poems of the *Cato* show that the moral fervor of the latter half of the sixteenth century had its genesis in a well-formulated theology that viewed a Christian's sanctification as a process of restoration to an original order created by God. For Beza the Christian life does not end with grace and salvation, but begins there. The principles of morality, in this theoretical framework, look back to the very moment of creation, when God structured human relationships, established a certain order in nature, and issued commands. The Mosaic Law and Christ himself embody these principles, which include an ethos of listening, sincerity of life, engagement with one's calling, love of neighbor, respect for divine order, and a desire for the purity of the flock. With insight and dexterity, as well as the use of previously unavailable sources, Summers contributes this significant volume to the study of Beza and his place in the history of the Reformed Orthodoxy.

**Thou Shalt Not Commit Adultery** Apr 15 2021 In an age of gender confusion and the redefinition of marriage, the words of 16th century Reformers Pierre Viret and his associate John Calvin offer a refreshing and astonishingly applicable examination of the Biblical definition of marriage and sexuality as well as its present application to our life and culture. What is marriage? How is true chastity defined? What constitutes just grounds for a Biblical divorce? Is remarriage ever lawful? And what about sensual music, dances, and the current trend in women's fashions? Within this book Pierre Viret (1511-1571) answers these and countless other questions. Written in the form of a conversation between two fictitious characters, Viret presents his readers with an easily-understood, down-to-earth, intensely practical exposition of the seventh commandment. Joining Viret, fellow-Reformer John Calvin (1509-1564) also offers his understanding of the Biblical definition of marriage, adultery, and sexuality in a sermon originally preached to his congregation in Geneva.

**Calvin's Geneva** Jul 31 2022 For over four hundred years, the city of Geneva has been important in Western history. The character of this city--steady, serious, erudite, clannish, and proud--has remained virtually unchanged since Calvin's time, the heroic age when she first became famous. Professor Monter relates the "success story" of this fascinating city through a fresh synthesis of printed and archival sources. In the sixteenth century, Geneva succeeded in winning and maintaining her independence, a feat unique in Reformation Europe. Into this special environment came Calvin--and his triumph was the result of a brilliant mind and an undeviating will being placed in the midst of the crude and confused surroundings of a revolutionary commune. Professor Monter explores the components of Geneva's and Calvin's fame in a number of ways. First, he outlines the history of the city from the early sixteenth century to Calvin's death in 1564, showing the tumultuous environment of the city where Calvin worked and the means by which local opposition to Calvin dissolved. He next describes the principal institutions and social groups of Calvin's Geneva: the established church, the civil government, and the foreign refugee communities. Finally, he assesses Calvin's legacy to Geneva and discusses the workings of Calvinism after its founder's death. As a whole, Calvin's Geneva is a revealing portrait of a major city and an acute analysis of its effect on one of the most important men in the sixteenth century.

**Adultery and Divorce in Calvin's Geneva** Jan 05 2023 In Calvin's Geneva, the changes associated with the Reformation were particularly abrupt and far-reaching, in large part owing to John Calvin himself. *Adultery and Divorce in Calvin's Geneva* makes two major contributions to our understanding of this time. The first is to the history of divorce. The second is in illustrating the operations of the Consistory of Geneva--an institution designed to control in all its variety the behavior of the entire population--which was established at Calvin's insistence in 1541. This mandate came shortly after the city officially adopted Protestantism in 1536, a time when divorce became legally possible for the first time in centuries. Robert Kingdon illustrates the changes that accompanied the earliest Calvinist divorces by examining in depth a few of the most dramatic cases and showing how divorce affected real individuals. He considers first, and in the most detail, divorce for adultery, the best-known grounds for divorce and the best documented. He also covers the only other generally accepted grounds for these early divorces--desertion. The second contribution of the book, to show the work of the Consistory of Geneva, is a first step toward a fuller study of the institution. Kingdon has supervised the first accurate and complete transcription of the twenty-one volumes of registers of the Consistory and has made the first extended use of these materials, as well as other documents that have never before been so fully utilized.

**Natural Law and the Two Kingdoms** Nov 22 2021 Conventional scholarship holds that the theology and social ethics of the Reformed tradition stand at odds with concepts of natural law and the two kingdoms. But David VanDrunen here challenges that status quo through his careful,

**Marriage, Separation, and Divorce in England, 1500-1700** Nov 30 2019 England is well known as the only Protestant state not to introduce divorce in the sixteenth-century Reformation. Only at the end of the seventeenth century did divorce by private act of parliament become available for a select few men and only in 1857 did the Divorce Act and its creation of judicial divorces extend the possibility more broadly. Aspects of the history of divorce are well known from studies which typically privilege the records of the church courts that claimed a monopoly on marriage. But why did England alone of all Protestant jurisdictions not allow divorce with remarriage in the era of the Reformation, and how did people in failed marriages cope with this absence? One part of the answer to the first question, Kesselring and Stretton argue, and a factor that shaped people's responses to the second, lay in another distinctive aspect of English law: its common-law formulation of coverture, the umbrella term for married women's legal status and property rights. The bonds of marriage stayed tightly tied in post-Reformation England in part because marriage was as much about wealth as it was about salvation or sexuality, and English society had deeply invested in a system that subordinated a wife's identity and property to those of the man she married. To understand this dimension of divorce's history, this study looks beyond the church courts to the records of other judicial bodies, the secular courts of common law and equity, to bring fresh perspective to a history that remains relevant today.

**Sex, Marriage, and Family in John Calvin's Geneva** Sep 01 2022 You would not expect this from his dour reputation, but John Calvin transformed the Western understanding of sex, marriage, and family life. In this fascinating, even sensational, volume John Witte and Robert Kingdon treat comprehensively the new theology and law of domestic life that Calvin and his fellow reformers established in sixteenth-century Geneva. Bringing to light and life hundreds of newly discovered cases and theological texts, Witte and Kingdon trace the subtle historical forms and norms of sex, marriage, and family life that still shape us today.

**The Brightest Mirror of God's Works** Jul 19 2021 John Calvin's perspectives on the nature, calling, and destiny of the human being is scattered all over his extensive corpus of writings. This book attempts to provide an accurate account of the main theological motifs that governed Calvin's doctrine on the human being, while keeping in mind variable factors such as the historical development of Calvin's thought, the pastoral and often unsystematic orientation of his theology, and the formative impact doctrinal controversies had on his thoughts. The contribution focuses specifically on Calvin's understanding of the created structure of the human being, her sinful nature, the human being's union with Christ, the limits of human reason, the anthropological roots of human society and gender. The primary aim is to make the original Calvin speak. But the contribution also addresses some of the most recent debates on Calvin's theology and identifies those impulses in his theological anthropology that bear potential for modern reflections on human existence. Like most of us, Calvin was a child of his time. However, his intellectual legacy endures and readers may well find his thoughts on the human being surprisingly refreshing and stimulating for modern anthropological and social discourses.

**Cultural Sociology of Divorce** Jan 01 2020 While the formal definition of divorce may be concise and straightforward (legal termination of a marital union, dissolving bonds of matrimony between parties), the effects are anything but, particularly when children are involved. The Americans for Divorce Reform estimates that "40 or possibly even 50 percent of marriages will end in divorce if current trends continue." Outside the U.S., divorce rates have markedly increased across developed countries. Divorce and its effects are a significant social factor in our culture and others. It might be said that a whole "divorce industry" has been constructed, with divorce lawyers and mediators, family counselors, support groups, etc. As King Henry VIII's divorces showed, divorce has not always been easy or accepted. In some countries, divorce is not permitted and even in Europe, countries such as Spain, Italy, Portugal, and the Republic of Ireland legalized divorce only in the latter quarter of the 20th century. This multi-disciplinary encyclopedia covers curricular subjects related to divorce as examined by disciplines ranging from marriage and the family to anthropology, social and legal history, developmental and clinical psychology, and religion, all through a lens of cultural sociology. Features: 550 signed entries, A-to-Z, fill 3 volumes (1,500 pages) in print and electronic formats, offering the most detailed reference work available on issues related to divorce, both in the U.S. and globally. Cross-References and Further Readings guide readers to additional resources. A Chronology provides students with context via a historical perspective of divorce. In the electronic version, the comprehensive Index combines with Cross-References and thematic Reader's Guide themes to provide convenient search-and-browse capabilities. For state and nation entries, uniform entry structure combined with an abundance of statistics facilitates comparison between and across states and nations. Appendices provide further annotated sources of data and statistics.

**John Calvin's Bible Commentaries On The Harmony Of The Gospels Vol. 2** Sep 08 2020 Calvin produced commentaries on most of the books of the Bible. His commentaries cover the larger part of the Old Testament, and all of the new excepting Second and Third John and the Apocalypse. His commentaries and lectures stand in the front rank of Biblical interpretation. Our Author has exerted a powerful influence on all succeeding expositors. They have found their interest in listening to his instructions, and have been more deeply indebted to him than is generally known. Many valuable interpretations of passages of Scripture appeared for the first time in his writings, and have ever since been warmly approved. In other cases, the views which had been previously held are placed by him in so strong a light as to remove every doubt, and satisfy the most cautious inquiry. And yet the stores, from which so much has been drawn, are far from being exhausted, nor is their value greatly lowered by improvements which have been subsequently made. The department of History presents an analogous case. Documents which had been overlooked are carefully

examined. Conflicting evidence is more accurately weighed. Important transactions assume a new aspect, or, at least, are altered in their subordinate details. Still, there are historians, in whose narrative the great lines of truth are so powerfully drawn, that the feeble, though more exact, delineations of other men cannot supply their place. In the chief moral requisite for such a work Calvin is excelled by none. He is an honest interpreter. No consideration would have induced him to wrest the words of Scripture from their plain meaning. Those who may question his conclusions cannot trace them to an unworthy motive. Timid theologians will be occasionally startled by his expositions.

**Life Writing in Reformation Europe** Jan 25 2022 The Reformation period witnessed an explosion in the number of biographies of contemporary religious figures being published. Whether lives of reformers worthy of emulation, or heretics deserving condemnation, the genre of biography became a key element in the confessional rivalries that raged across Europe in the sixteenth and seventeenth centuries. Offering more than a general survey of Life writing, this volume examines key issues and questions about how this trend developed among different confessions and how it helped shape lasting images of reformers, particularly Luther and Calvin up to the modern period. This is the first-ever full length study of the subject showing that Lives of the reformers constitute an integral part of the intellectual and cultural history of the period, serving as an important source of information about the different Reformations. Depending on their origin, they provide a lesson in theology but also in civic values and ideals of education of the period. Genevan Lives in particular also point up the delicate issue of 'Reformed hagiography' which their authors try to avoid with a varying degree of success. Having consistently been at the forefront of the study of the intellectual history of the Reformation Irena Backus is perfectly placed to highlight the importance of Life writing. This is a path-breaking study that will open up a new way of viewing the confessional conflicts of the period and their historiography.

**John Calvin's Bible Commentaries On Isaiah 49- 66** May 17 2021 Calvin produced commentaries on most of the books of the Bible. His commentaries cover the larger part of the Old Testament, and all of the new excepting Second and Third John and the Apocalypse. His commentaries and lectures stand in the front rank of Biblical interpretation. All who take delight in the Holy Scriptures are familiarly acquainted with the writings of The Prophet Isaiah. Every variety of taste finds in them its appropriate gratification. Lofty conceptions, illustrated by splendid imagery, and clothed in language usually copious and flowing, some times abrupt, but always graceful, leave no room for hesitation to pronounce him, with Bishop Lowth, to be "the most sublime and elegant of the Prophets of the Old Testament." He is regarded with peculiar veneration as an honest, fearless, and able messenger of the Most High God, boldly reproving nobles and monarchs, denouncing the judgments of Heaven against all transgressors, and asserting the claims of the Divine law and government above all human authority. In his Prophecies he takes a wide range, surveys those nations which power or wealth or learning or commerce had raised to the highest celebrity in those remote times, and describes their rise and fall, and wonderful revolutions, so eagerly traced lay us in the page of history, as the execution of Jehovah's counsels, and the arrangements of unerring wisdom But chiefly does he pour out rich instruction concerning the Messiah, whose life and sufferings, and death and glorious reign, he delineates so faithfully, and with such thrilling interest, that he has obtained the appellation of The Evangelical Prophet.

**John Wesley and Marriage** Oct 22 2021 "In this book, a Methodist minister examines the sources of John Wesley's ideas about marriage and shows how those beliefs found expression in the cleric's revision of the Anglican wedding service." "Author Bufford W. Coe describes the radical differences between a typical eighteenth-century wedding and a church wedding of today. He also tells the fascinating story of Wesley's romances with Sophia Hopkey and Grace Murray, based on his own private diaries, and shows how those relationships, as well as his miserably unhappy marriage, were affected by Wesley's beliefs about matrimony." "Four days after Wesley decided he would marry at the age of forty-seven, he spoke to a group of unmarried men and encouraged them to remain single. In the matrimonial service he devised for American Methodists, Wesley eliminated the custom of the bride being given in marriage by her father, although Wesley consistently taught that Christians should not marry without the consent of their parents. Wesley strongly condemned the Roman Catholic Church for requiring celibacy of its priests, but his own rules required that Methodist preachers who married during their initial probationary period were thereby disqualified." "In 1784, Wesley published *The Sunday Service of the Methodists in North America with Other Occasional Services*. Coe studies the components of Wesley's marriage liturgy from the Sunday Service to

try to determine why Wesley revised the Anglican wedding service in the way that he did."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

John Calvin's Commentaries On The Harmony Of The Law Vol. 3 (Annotated Edition) Jan 13 2021 This is the extended and annotated edition including \* an extensive biographical annotation about the author and his life Calvin produced commentaries on most of the books of the Bible. His commentaries cover the larger part of the Old Testament, and all of the new excepting Second and Third John and the Apocalypse. This edition is volume three out of four of Calvin's commentaries on the four last books of Moses, arranged in the form of a harmony.

**Calvin's Complete Commentary on the Bible** Mar 15 2021 All 46 of the original volumes are included in this one volume. There are two linked indexes in this volume, a main index at the front of this volume that will take you to the beginning each of the books of the bible and another index at the beginning of each book there is a linked scripture index leading to the particular subject. John Calvin is considered as the first truly great scholar of the Reformation. Indeed, he has even been seen by some to be one of history's greatest Christian biblical scholars. He had an incredible command of the Bible, and his interpretations were not based on just one or two passages. He combined pastoral insight with solid exegesis to form a strong interpretation of the scriptures. However, some of his views on the prophetic interpretation, such as in the book of Daniel, are controversial. He put forth a purist view and believed that the prophecies in the book of Daniel applied solely to the history between the time of the prophet Daniel (530 BC) and Jesus' first coming (30 AD). Nevertheless, John Calvin was a force to be reckoned with, and is considered to have a unique insight which enabled him to find the true meaning of the Bible. Dutch theologian Jacobus Arminius, after whom the anti-Calvinistic movement Arminianism was named, states that, "Next to the study of the Scriptures which I earnestly inculcate, I exhort my pupils to peruse Calvin's Commentaries, which I extol in loftier terms than Helmich himself (a Dutch divine, 1551-1608); for I affirm that he excels beyond comparison in the interpretation of Scripture, and that his commentaries ought to be more highly valued than all that is handed down to us by the library of the fathers; so that I acknowledge him to have possessed above most others, or rather above all other men, what may be called an eminent spirit of prophecy. His Institutes ought to be studied after the (Heidelberg) Catechism, as containing a fuller explanation, but with discrimination, like the writings of all men." During his life, Calvin produced commentaries on 48 books of the Bible, a total of 45 published volumes. He intended to put out a complete commentary of the Bible, but his death prevented this. The books of Judges, Ruth, 1 & 2 Samuel, 1 & 2 Kings, 1 & 2 Chronicles, Ezra, Nehemiah, Esther, Job, Proverbs, Ecclesiastes, Song of Solomon, 2 & 3 John, and Revelation were unfortunately not completed. He did, however, write a two volume commentary of the Harmony of the Gospels (Matthew, Mark, and Luke) as well as a separate commentary for the gospel of John. Likewise, he also wrote a two volume series on the Harmony of the Law (Exodus, Leviticus, Numbers, and Deuteronomy). Calvin's own exegesis of the original text allowed him to bring out a unique and pleasing interpretation. He begins each section of scripture with his own translation of the text and then further expounds upon it, point by point, making it an excellent resource for ministers and teachers alike. After more than 400 years, Calvin's commentaries are still a relevant and essential tool for Christians.

*Reformation Marriage* Nov 10 2020 " For centuries its critics have argued that the Reformation was all about sex. Beyond the caricature, there is something significant in the observation. The theological revolution which began in Wittenberg and engulfed so much of early modern Europe was not confined to the cloister of the university; it had an immediate and palpable impact on everyday life. Historians such as Steven Ozment have done much to bring this dimension of the Reformation's impact into full view. Michael Parsons' important study, *Reformation Marriage*, continues this exploration. Aware of appeals made to the teaching of the Reformers by both sides of contemporary debates about gender and relational issues, Dr. Parsons allow us to hear Luther and Calvin for ourselves, locating their comments about family life against the background of medieval teaching on the subject and placing them in the context of each man's wider theological concerns. Here is careful and accessible scholarship that challenges popular misunderstandings about the contribution of the Reformation in this area." --Mark D. Thompson, Moore Theological College, Sydney, Australia "In the only book specifically on the subject to date, Michael Parsons investigates the theology of marriage in the writings of Martin Luther and John Calvin, carefully examining a daunting breadth of the Reformers' theological, exegetical, and homiletic works. He concentrates on the role of the wife in the conjugal relationship, but avoids the common polarity between the modern feminist critique of the woman's role in a Christian understanding of marriage and society, and those who simply ignore the gender difference between man and woman. While appreciating the questions raised by the modern liberationist and feminist scholars of the Reformers, Parsons believes they have generally failed to deal with the corpus of the Reformers in a sufficiently nuanced way. On the other hand, unlike some scholars who want to rescue these Reformers from contemporary criticism, Parsons carefully argues from wide primary evidence that neither Luther nor Calvin envisaged modifying the traditional hierarchal structure of marriage or the subordinationist conjugal relationship between man and woman. He refuses to turn the Reformers into pro-twenty-first-century thinkers, much as we might like them to conform more readily to our own contemporary attitudes. His interpretation therefore injects a much-needed dimension of historical realism into the ongoing scholarly debate on the Reformers' social theology." --Rowan Strong, Murdoch University, Perth, Western Australia

**Divine Accommodation in John Calvin's Theology** Dec 24 2021 Arnold Huijgen analyses and assesses the idea of divine accommodation in John Calvin's theology. He proves that Calvin's idea of accommodation was terminologically influenced by Erasmus, while its content originated in patristic theology. Though Calvin's idea of accommodation is multifaceted, Huijgen subsumes and analyzes it in the light of the two main perspectives of pedagogy and revelation. The pedagogical aspect relates to Calvin's understanding of salvation history, and the relation between the Old and the New Testament. In this perspective Christ as the mediator holds a central position. The aspect of revelation focuses on Calvin's comprehension of God's nature which for him is behind God's revelation. Calvin's understanding of accommodation implies a distinct dynamic to revelation, which is disrupted by its static, hierarchical ontology. Huijgen points out the weaknesses of Calvin's idea of accommodation on the basis of modern critiques by Karl Barth, Isaak August Dorner, and Harry M. Kuitert; he also explores the viable points for present day theology.
