MG's Abingdon Factory Oct 11 2020 Brian Moylan started working for MG in 1950 as a mechanic in the service/repair shop. In 1955 he was drafted in to the Racing Department. which was the centre for all BMC competition work. During his time there he was fortunate enough to work on several rally winning Minis including the 1967 Monte Carlo Rally winner. Just before the factory closed in 1980 Bryan was offered the position of manager of a small satellite Morris Garages outlet. Bryan has always been involved in the MG Car Club, serving on the committee of the local Centre in various capacities. Since his retirement he has started giving slide shows on MG history and writing articles for the leading Classic Car magazines, plus three books on MG and rally connected subjects. Bryan also works closely with the Abingdon Museum setting up MG Exhibitions and is currently working towards having a permanent exhibition in the Museum.

Power Equipment Engine Technology Apr 16 2021 POWER EQUIPMENT ENGINE TECHNOLOGY (PEET) is designed to meet the basic needs of students interested in the subject of small engine repair by helping instructors present information that will aid in the student's learning experience. The subject matter is intended to help students become more qualified employment candidates for repair shops looking for well-prepared, entry-level technicians. PEET has been written to make the learning experience enjoyable: The easy-to-read-and-understand chapters and over 600 illustrations assist visual learners with content comprehension. The book comprises 17 chapters, starting with a brief history of the internal combustion engine and ending with a chapter on troubleshooting various conditions found on any power equipment engine. Both two-stroke and four-stroke engines are covered. PEET can be used not only by pre-entry-level technicians but also as a reference manual by practicing technicians, and it will be helpful for the general consumer of power equipment engines that has an interest in understanding how they work. In today's world, an education prior to working in the field is becoming more desirable by all shops that hire. Power equipment technicians are currently sought after and will continue to be in demand in the future as technology advances in the manufacturing of modern power equipment engines.
