Socrates in Love Dec 06 2022 An innovative and insightful exploration of the passionate early life of Socrates and the influences that led him to become the first and greatest of philosophers Socrates: the philosopher whose questioning gave birth to the ideas of Western thought, and whose execution marked the end of the Athenian Golden Age. Yet despite his pre-eminence among the great thinkers of history, little of his life story is known. What we know tends to begin in his middle age and end with his trial and death. Our conception of Socrates has relied upon Plato and Xenophon - men who met him when he was in his fifties and a well-known figure in war-torn Athens. There is mystery at the heart of Socrates' story: what turned the young Socrates into a philosopher? What drove him to pursue with such persistence, at the cost of social acceptance and ultimately of his life, a whole new way of thinking about the meaning of existence? In this revisionist biography, Armand D'Angour draws on neglected sources to explore the passions and motivations of young Socrates, showing how love transformed him into the philosopher he was to become. What emerges is the figure of Socrates as never previously portrayed: a heroic warrior, an athletic wrestler and dancer - and a passionate lover. Socrates in Love sheds new light on the formative journey of the philosopher, finally revealing the identity of the woman who Socrates claimed inspired him to develop ideas that have captivated thinkers for 2,500 years.

Alain L. Locke Sep 22 2021 Alain L. Locke (1886-1954), in his famous 1925 anthology *The New Negro*, declared that "the pulse of the Negro world has begun to beat in Harlem." Often called the father of the Harlem Renaissance, Locke had his finger directly on that pulse, promoting, influencing, and sparring with such figures as Langston Hughes, Zora Neale Hurston, Jacob Lawrence, Richmond Barthé, William Grant Still, Booker T. Washington, W. E. B. Du Bois, Ralph Bunche, and John Dewey. The long-awaited first biography of this extraordinarily gifted philosopher and writer, Alain L. Locke narrates the untold story of his profound impact on twentieth-century America's cultural and intellectual life. Leonard Harris and Charles Molesworth trace this story through Locke's Philadelphia upbringing, his undergraduate years at Harvard—where William James helped spark his influential engagement with pragmatism—and his tenure as the first African American Rhodes Scholar. The heart of their narrative illuminates Locke's heady years in 1920s New York City and his forty-year career at Howard University, where he helped spearhead the adult education movement of the 1930s and wrote on topics ranging from the philosophy of value to the theory of democracy. Harris and Molesworth show that throughout this illustrious career—despite a formal manner that many observers interpreted as elitist or distant—Locke remained a warm and effective teacher and mentor, as well as a fierce champion of literature and art as means of breaking down barriers between communities. The multifaceted portrait that emerges from this engaging account effectively reclaims Locke's rightful place in the pantheon of America's most important minds.

The Philosopher Jan 27 2022 How the role of the philosopher has changed over time and across cultures—and what it reveals about philosophy today What would the global history of philosophy look like if it were told not as a story of ideas but as a series of job descriptions—ones that might have been used to fill the position of philosopher at different times and places over the past 2,500 years? *The Philosopher* does just that, providing a new way of looking at the history of philosophy by bringing to life six kinds of figures who have occupied the role of philosopher in a wide range of societies around the world over the millennia—the Natural Philosopher, the Sage, the Gadfly, the Ascetic, the Mandarin, and the Courtier. The result is at once an unconventional introduction to the global history of philosophy and an original exploration of what philosophy has been—and perhaps could be again. By uncovering forgotten or neglected philosophical job descriptions, the book reveals that philosophy is a universal activity, much broader—and more gender inclusive—than we normally think today. In doing so, *The Philosopher* challenges us to reconsider our idea of what philosophers can do and what counts as philosophy.

What a Philosopher Is Dec 26 2021 The trajectory of Friedrich Nietzsche's thought has long presented a difficulty for the study of his philosophy. How did the young Nietzsche—classicist and ardent advocate of Wagner's cultural renewal—become the philosopher of Will to Power and the Eternal Return? With this book, Laurence Lampert answers that question. He does so through his trademark technique of close readings of key works in Nietzsche's journey to philosophy: *The Birth of Tragedy*, *Schopenhauer as Educator*, *Richard Wagner in Bayreuth*, *Human All Too Human*, and "Sanctus Januarius," the final book of the 1882 *Gay Science*. Relying partly on how Nietzsche himself characterized his books in his many autobiographical guides to the trajectory of his thought, Lampert sets each in the context of Nietzsche's writings as a whole, and looks at how they individually treat the question of what a philosopher is. Indispensable to his conclusions are the workbooks in which Nietzsche first recorded his advances, especially the 1881 workbook which shows him gradually gaining insights into the two foundations of his mature thinking. The result is the most complete picture we've had yet of the philosopher's development, one that gives us a Promethean Nietzsche, gaining knowledge even as he was expanding his thought to create new worlds.

The Making of a Philosopher Oct 04 2022 Part memoir, part study, *The Making of a*

Philosopher is the self-portrait of a deeply intelligent mind as it develops over a life on both sides of the Atlantic. *The Making of a Philosopher* follows Colin McGinn from his early years in England reading Descartes and Anselm, to his years in the states, first in Los Angeles, then New York. McGinn presents a contemporary academic take on the great philosophical figures of the twentieth century, including Bertrand Russell, Jean-Paul Sartre, and Noam Chomsky, alongside stories of the teachers who informed his ideas and often became friends and mentors, especially the colorful A.J. Ayer at Oxford. McGinn's prose is always elegant and probing; students of contemporary philosophy and the general reader alike will absorb every page.

The Darkness and the Light Feb 13 2021 In this book Charles Hartshorne continues his contribution to the field with autobiographical reflections, showing the causal conditions which made his career possible. □ There is some advantage in associating philosophical beliefs with specific life situations. The reader will find suggestions for a philosophy of life and of religion. The religion is not the orthodox Protestant Christianity which I grew up in, although it is closely related, but also includes Judaism, Buddhism, and some forms of Hinduism. It will in some ways be found close to the beliefs of C.S. Peirce and also those of A.N. Whitehead. Of the persons, famous or not famous, that I have known, I recall many things that seem worth making available to others, sometimes witty remarks, expressions of outstanding goodness, remarkable wisdom, or ludicrous foolishness. In such ways the book is a celebration of life in its variety, depths, and heights. □ □ Charles Hartshorne

What Makes a Philosopher Great? Apr 29 2022 This book is inspired by a single powerful question. What is it to be great as a philosopher? No single grand answer is presumed to be possible; instead, rewardingly close studies of philosophical greatness are developed. This is a scholarly yet accessible volume, blending metaphilosophy with the long history of philosophy and traversing centuries and continents. The result is a series of case studies by accomplished scholars, each chapter trying to understand and convey a particular philosopher's greatness: Lloyd P. Gerson on Plato, Karyn Lai on Zhuangzi, David Bronstein on Aristotle, Jonardon Ganeri on Buddhaghosa, Jeffrey Hause on Aquinas, Gary Hatfield on Descartes, Karen Detlefsen on du Châtelet, Don Garrett on Hume, Allen Wood on Kant (as a moral philosopher), Nicholas F. Stang on Kant (as a metaphysician), Ken Gemes on Nietzsche, Cheryl Misak on Peirce, and David Macarthur on Wittgenstein. This also serves a larger philosophical purpose. Might we gain increased clarity about what philosophy is in the first place? After all, in practice we individuate philosophy partly through its greatest practitioners' greatest contributions. The book does not discuss every philosopher who has been regarded as great. The point is not to offer a definitive list of The Great Philosophers, but, rather, to learn something about what great philosophy is and might be, from illuminated examples of past greatness -- Provided by publisher.

Talking about Health Sep 30 2019 This book is a scholarly treatise on the nature of health presented in the form of a dialogue between an inquirer and a philosopher. It attempts to do two things: first, to introduce modern philosophy of health to non-philosophers, in particular to people with a professional relation to health care; and second, to elaborate and specify in some detail the author's holistic theory of health. According to this theory, a person is completely healthy if, and only if, she or he is able to realize all her or his vital goals given reasonable circumstances. This theory is presented

by the philosopher in the book, but it is at the same time scrutinized and criticized by the inquirer. Some of the criticisms presented, and to which the philosopher responds, have been put forward in published reviews of the author's earlier works. Towards the end of the book the author demonstrates how his philosophy of health can be applied to related areas, such as the theory of disability, and to modern ethical discussion, such as that concerning prioritization in health care. The book is supplemented with a list of definitions of central concepts and with an annotated bibliography.

To Perpetual Peace Jul 21 2021 What is the standing of a sovereign nation and what are its rights relative to other sovereign nations? What is our obligation to pursue peace? Can intervention in the affairs of another sovereign nation be justified? Who, if any one, has the right to intervene? In this short essay, Kant completes his political theory and philosophy of history, considering the prospects for peace among nations and addressing questions that remain central to our thoughts about nationalism, war, and peace. Ted Humphrey provides an eminently readable translation, along with a brief introduction that sketches Kant's argument.

Socrates Dec 14 2020 Socrates is an elusive figure, Sarah Kofman asserts, and he is necessarily so since he did not write or directly state his beliefs. Kofman suggests that Socrates' avowal of ignorance was meant to be ironic. Later philosophers who interpreted

his text invariably resisted the profoundly ironic character of his way of life and diverged widely in their interpretations of him. Kofman focuses especially on the views of Plato, Hegel, Kierkegaard, and Nietzsche.
