The Slav Jun 24 2022 Concise coverage of a dependable & dynamic opening favored by many top chess players.

Chess Thinking Apr 10 2021 A first-of-its-kind encyclopedia for chess players, this volume features detailed explanations and invaluable illustrations for new chess players, those intent on improving their games, and anyone who needs to brush up on both the basics and more advanced play. 140 detailed illustrations.

Semi-Slav Dec 19 2021 Lars Schandorff s two volumes on 1.d4 were celebrated by reviewers and grandmasters. GM Simen Agdestein said: I have recently been reading Lars Schandorff s Playing 1.d4 books, thinking that it cannot possibly get more instructive than this. Meanwhile, GM Boris Avrukh s verdict was

simple: Lars, I want to play your book. Now Schandorff switches sides and offers a top-class Semi-Slav repertoire against 1.d4. The Semi-Slav strikes the perfect balance of ambition and soundness, which has made it popular at every level up to and including the world championship. Black needs to know his stuff, but Schandorff is the ideal guide to make the learning process a pleasure."

The Queen's Gambit Declined: Move by Move Apr 30 2020 The Queen's Gambit Declined is one of the central pillars of chess opening theory. Virtually every world champion has played the opening with both the white and black pieces and it is a great favorite at all levels in chess. The reason for its enduring popularity is that it is rich in the classic strategic themes. Either side can end up with an isolated d-pawn, White can pursue a queenside initiative while Black counters on the other wing or White can attempt to build a powerful centre that Black hopes to undermine. The Move by Move series provides an ideal format for the keen chessplayer to improve their game. While reading you are continually challenged to answer probing questions - a method that greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of chess knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to study chess while providing the best possible chance to retain what has been learnt. * Everything you need to know about the Queen's Gambit Declined . * The Q and A approach emphasizes plans and strategies. * Written by an expert on the opening.

Countering the Queen's Gambit May 12 2021

1.D4! the Chess Bible: Mastering Queen's Pawn Structures Oct 24 2019 "All beginnings are difficult" is an old saying, and this is true as well from my review of this book. I am reminded of the story where an elderly woman says to her surgeon, "Doctor, I am so afraid as this is my first operation." The doctor winks and says,

"Don't worry it will be my first operation as well!" So you and I have this book in front of us as the surgery and the work of my young friend and former student IM Armin Juhász is the surgeon. I remember vividly the founding of Géza Maróczy Chess School in Budapest in 2006. The School was especially successful during its first years. Following the examples of such outstanding Hungarian players as László Szabó, Gedeon Barcza or Géza Maróczy himself, a number of excellent young players including Benjamin Gledura and Richard Rapport (currently ranked 13th in the world) have debuted their talents at the school. It was also at the Maróczy school where Ármin Juhász studied as well. Was it easy for these students? Was it easy for us coaches? I think the answer is a clear yes. We had the privilege to invite as guest lecturers such internationally known Hungarian chess greats as Pál Benkő, Lajos Portisch, Zoltán Ribli, Gyula Sax, István Csom, (members of the gold medalist team at the 1978 Chess Olympiad in Buenos Aires), and Judit Polgár, Zsuzsa Polgár, Zsuzsa Verőci and Mária Ivánka. Our young students had the opportunity to learn chess from no lesser names than these. And yes, IM Ármin Juhász, who became the youngest FIDE Trainer in Europe in 2018, was among these students. In his first book (we anticipate many more), the young Hungarian author makes a worthy attempt to walk his readers through a complete 1.d4 opening repertoire. Yet while he is taking you thru the opening he never forgets the other phases of the game. As a result, the subsequent middlegame and endgame elements are remarkably well organized benefitting both beginner and advanced players to acquire powerful skills with 1.d4. In addition, Ármin pays adequate attention to those tactical motifs that are quite significant in the dynamic games of many contemporary players. Clearly he keeps in mind the German master Richard Teichmann's observation that "Chess is 99% tactics". This complex book follows a clear structure with a large number of games and positions from outstanding players and various

historical eras. Then he spices all this up in the analyses sections with tricks and insights mainly associated with the so-called Hungarian chess school tradition. I heartily recommend this book not only to those who are eager to boost their ELO rating (Did you know that Dr. Árpád Élő was an American professor of Hungarian birth?) but also to coaching colleagues (including my fellow GMs), because 1.d4! The Chess Bible is an excellent source of great examples and useful drills. I will certainly use it in my own coaching practice. Lastly, please be aware that the author comes from a dedicated chess family. His older brother, IM Kristóf Juhász is 27 and achieved his first GM norm in 2020, the year of the pandemic. His younger brother FM Ágoston Juhász (aged 15) was a U14 National Champion. See you at the Chess Olympiad in Budapest in 2024! József Horváth Grand Master and FIDE Senior Trainer Budapest, January 2021

My Best Games of Chess, 1908-1937 Jul 14 2021 The best games of one of the best players in chess history. 220 games with Alekhine's own accounts. Spans 30 years of tournament play.

A Primer of Chess Jun 12 2021 A basic manual of chess by the master Jos Raul Capablanca, regarded as one of the half dozen greatest players ever. Capablanca was noted especially for his technical mastery, and in this book he explains the fundamentals as no one else could. Diagrams.

107 Great Chess Battles, 1939-1945 Nov 17 2021 One of the game's greatest players annotates scores of fascinating games involving Capablanca, Bogoljubov, Keres, Reshevsky, others. Included are many of Alekhine's own games, plus candid commentary on fellow masters, rivals.

The Queen's Gambit Apr 22 2022 NOW A MAJOR NETFLIX SERIES starring Anya Taylor-Joy from Academy-Award nominee Scott Frank and BAFTA nominee Allan Scott 'Superb' Time Out 'Mesmerizing' Newsweek 'Gripping' Financial Times 'Sheer entertainment. It is a book I reread every few years - for the pure pleasure and skill of it' Michael Ondaatje 'Don't pick this up if you

want a night's sleep' Scotsman When she is sent to an orphanage at the age of eight, Beth Harmon soon discovers two ways to escape her surroundings, albeit fleetingly: playing chess and taking the little green pills given to her and the other children to keep them subdued. Before long, it becomes apparent that hers is a prodigious talent, and as she progresses to the top of the US chess rankings she is able to forge a new life for herself. But she can never quite overcome her urge to self-destruct. For Beth, there's more at stake than merely winning and losing. 'Few novelists have written about genius - and addiction - as acutely as Walter Tevis' The Telegraph

My Best Games of Chess 1905-1954 Sep 23 2019 The Unique Genius of Tartakower! One of the most creative grandmasters ever to play the Royal Game was Savielly Tartakower. His combination of bold play and fascinating writing has long endeared him to chess aficionados worldwide. His classic work of best games has never been available in English algebraic notation. Until now. "Tartakower's annotations are unlike any other master of his time. He repeatedly stressed the psychological nature of chess, for example. Another 'Tartakowerism' is: 'An attack is against a castled position, weak pawns and, most of all, against the mind of the opponent.' What he reserves for a footnote, like what conditions are present to make a game a work of art, other authors would need pages to articulate, if they addressed the matters at all. "This book was meant to do what all great annotations do: instruct, explain, and entertain. And it succeeds spectacularly." - Andy Soltis in his Foreword Experience the unique genius of Savielly Tartakower in this 21st Century Edition of his games collection - 201 games, 49 game fragments, all deeply annotated and quintessentially Tartakower!

The Queen's Gambit Accepted Sep 15 2021 The Queen's Gambit Accepted (QGA) is Black's most straightforward answer to the popular Queen's Gambit. By accepting the gambit pawn, Black refuses to submit to the strategic bear-hug which is so

common in the Queen's Gambit Declines. The QGA is fundamentally sound, but soon leads to sharp play where both sides have plenty of chances to play for a win.

The Semi-Slav May 24 2022 The Semi-Slav defence has been one of Black's most reliable defences to the queen's pawn since the 1920's. Now, it is fashionable both at grandmaster level and with club and tournament players. Here, Grandmaster Matthew Sadler explains the strategy and tactics of this dynamic opening. Through the use of model games for both sides, the author provides a thorough grounding in the key ideas.

Aron Nimzowitsch Jan 08 2021 One of the greatest chess legends of all time, Aron Nimzowitsch (1886-1935), is best known for founding the Hypermodernism school of chess, which emerged after World War I to challenge the chess ideologies of traditional central European masters. This first full-scale biography of Nimzowitsch chronicles his early life in Denmark, his family and education, and his fascination with the game that would become the focus of his life. Also included are explorations of his tournament games and records, his dispute with influential chess teacher Siegbert Tarrasch, and his role in the development of Hypermodern Chess. With detailed accounts of nearly 450 games and the only narrative of Nimzowitsch from 1914 to 1924, a period formerly cloaked in mystery, this volume offers the most thorough profile available of one of chess's greatest innovators.

Opening Repertoire: The Queen's Gambit Aug 27 2022 Grandmaster Damian Lemos presents a repertoire for White in the Queen's Gambit, one of the most famous chess openings. The Queen's Gambit enjoys a long and illustrious past. It has been played by virtually all the strongest grandmasters in the history of chess, and today it remains a popular choice for players of all levels. White's opening moves in the Queen's Gambit are built on sound strategic principles, and it can lead to positions rich in both tactical and positional play. It's a perfect opening to use in order to develop your chess understanding. It's a perfect opening to use

in order to develop your chess understanding. There are many defences that Black can employ against the Queen's Gambit and it's easy to become confused by the countless options for both White and Black. Lemos tackles this problem by providing a concise, easy-to-learn and practical repertoire that is suitable for players of all levels. Using illustrative games, Lemos examines the typical tactics and strategies for both sides, and highlights the key move order issues. This book tells you everything you need to know about playing the Queen's Gambit. * A complete repertoire with 1 d4 d5 2 c4 * Over 50 games with grandmaster analysis * Written by a Queen's Gambit expert

Vassily Ivanchuk Sep 03 2020 "Chuky, you're a genius." Leading grandmasters have been heard to whisper these words, impressed with yet another brilliancy of Vassily Ivanchuk. The Ukrainian wizard, immensely popular with pros and amateurs alike, has been a member of the world elite for more than twenty years and is one of the most active players on the international circuit. Ivanchuk has finished first in all major tournaments in the world, at times with astonishing supremacy and always with deeply creative chess. He has won the Junior World Championship, the Blitz World Championship and reached the number two spot in the world rankings. Four times he was a member of the team that won the Chess Olympiad, once also claiming the individual gold medal on first board. The question why Ivanchuk, with his phenomenal talent and uncompromising passion for the game, has never become World Champion is something of a mystery. The inability to handle stress has been suggested and he himself has pointed at periods of 'black moods' or 'psychological crises'. Still, despite occasional erratic results, he has always maintained his position among the very best. For this book Correspondence Grandmaster and chess author Nikolay Kalinichenko has selected 100 of Vassily Ivanchuk's best and most instructive games, explaining his moves and plans for club players. The result is a fascinating and rewarding journey to

'Planet Ivanchuk', the extraterrestrial location where the sphinx from Lvov is said to receive his best brainwaves.

The Triangle System Jul 02 2020 Glenn Flear presents a repertoire for Black based on the Semi-Slav Triangle. This includes the dynamic Abrahams-Noteboom Variation, as well as options for Black against the Marshall Gambit and White's quieter tries.

Queen's Gambit and Other Close Games Aug 15 2021

Smyslov, Bronstein, Geller, Taimanov and Averbakh Aug 22 2019

A crucial decision spared chess Grandmaster David Bronstein almost certain death at the hands of the Nazis--one fateful move cost him the world championship. Russian champion Mark Taimanov was a touted as a hero of the Soviet state until his loss to Bobby Fischer all but ruined his life. Yefim Geller's dream of becoming world champion was crushed by a bad move against Fischer, his hated rival. Yuri Averbakh had no explanation how he became the world's oldest grandmaster, other than the quixotic nature of fate. Vasily Smyslov, the only one of the five to become world champion, would reign for just one year--fortune, he said, gave him pneumonia at the worst possible time. This book explores how fate played a capricious role in the lives of five of the greatest players in chess history.

Chess Explained Nov 05 2020 Chess Explained books provide an understanding of an opening and the middlegames to which it leads, enabling you to find the right moves and plans in your own games. It is as if you were sitting at the board with a chess coach answering your questions about the plans for both sides, the ideas behind particular moves, and what specific knowledge you need to have. Belying its solid classical appearance, the Semi-Slav is one of Black's most aggressive responses when White opens with the queen's pawn. The Meran is its traditional main line, and often leads to chaotic positions of immense strategic and tactical richness. This is territory where the player who is better prepared and has a superior 'feel' for the nuances will typically emerge

victorious, even against a stronger opponent. Vera draws upon decades of personal experience to explain the underlying logic of the Meran and related lines, and to pick out the key features of positions that to the untrained eye might appear random and unfathomable. In addition to discussing all major lines after 5 e3, Vera also covers many subtle issues of move-order, which are of great importance when trying to steer the game into the desired channels.

100 Soviet Chess Miniatures Jan 20 2022 Tactics, audacity, and speed are the hallmarks of miniature chess ? games played in 25 moves or less. Learn from 100 games played by Soviet chess masters. 99 chess diagrams.

Encyclopedia of Chess Wisdom, 2nd Edition Feb 27 2020 A preeminent chess analyst and the author of World Champion Openings presents diagrams, examples, sidebars, and sample games that illustrate key concepts and strategies for chess players. Original.

An Idiot-Proof Chess Opening Repertoire Oct 17 2021 Ever wanted a complete chess opening repertoire - for White and Black - whose basics can be learned in a week? A strategic low-maintenance repertoire that does not require memorizing of long variations, and yet can frustrate both stronger and weaker opponents? In this book, award-winning author Graham Burgess has come up with the ultimate simplified repertoire. But it is not based on boring or unambitious openings. The aim is to avoid symmetry and mass exchanges, and reach an unbalanced middlegame. You won't be dumped into do-or-die tactics where the penalty for forgetting a key move is an instant loss. There are plenty of sharp and aggressive ideas within these pages, but the openings chosen provide a firm and sound base for experimentation. If you forget the critical line and have to make something up at the board, then if you have understood the key strategic themes - which are explained with the use of mini-rules and reminders - then you should get a playable game. As Black,

we choose the slippery Scandinavian and a carefully crafted hybrid of the Slav and QGA. As White it is the English Opening, often with Botvinnik set-ups that will give our opponents fits! These will become your special lines, where you will know and understand more than most players, even much stronger ones. Graham Burgess has written 28 chess books, including three on opening play for the 'Chess for Kids' series. He is a FIDE Master and a former champion of the Danish region of Funen, and in 1994 set a world record for marathon blitz chess playing.

Knack Chess for Everyone Nov 25 2019 Chess is a refreshing pastime for most players, and an all-encompassing obsession for a few. And yet much of chess literature—heavy on notation, low on useful illustrations, frustrating for the beginner—is directed at those already in the know. *Knack Chess for Everyone* provides an alternative: a clear, understandable, and fun entry into chess that doesn't ignore the complexities and challenges. Photographs of actual game boards, often paired with a diagram, represent the perspective of the player looking at the pieces. The book clearly explains the rules of play and movement of pieces, and then gradually introduces various tactics and strategies.

The Slav Jul 26 2022 The Slav Defence (1 d4 d5 2 c4 c6) has been one of Black's most reliable defences to the queen's pawn since its adoption by World Champions Alekhine and Euwe in the 1930s. Nowadays it is very popular both at grandmaster level (it is used regularly by Ivanchuk, Lautier and Short) and with club players. In this book Grandmaster Matthew Sadler explains the strategy and tactics of this perennial favourite. Through the use of model games for both sides, the author provides a thorough grounding in the key ideas, so that readers can quickly and confidently start to use the Slav in their own games. Also included is a survey of the trendy new 1 d4 d5 2 c4 c6 3 Nf3 Nf6 4 Nc3 a6 variation.

Play the Slav Jan 26 2020 James Vigus presents a comprehensive and trustworthy repertoire for Black, and provides you with

enough knowledge to play the Slav with confidence in your own games.

Play the Semi-Slav Mar 29 2020 The Semi-Slav, one of the most popular openings among the chess elite, is also one of the most popular chess openings that Black can play against 1.d4. This book provides expert guidance on how to play this exciting variation. The reader receives an exciting Black repertoire against 1.d4, and a choice of two lines against Whites main tries.

The Life and Chess Games of Carlos Torre Mar 10 2021 Mexico's First Grandmaster - The Genius of Carlos Torre! This book is offered to chessplayers and enthusiasts of all Spanish-speaking countries as an homage to one of the greatest Latin American chess players of all time: Grandmaster Carlos Torre Repetto, originally from Yucatán, Mexico. In recognition of Torre's formidable accomplishments and triumphs during the years 1924-1926, the Fédération Internationale Des Echecs (FIDE, the International Chess Federation) in 1977 bestowed on Torre the title of International Grandmaster. This is a collection of 105 well-annotated games by Torre against the strongest players of his time. You are invited to enjoy and learn from Torre's great games, his beautiful combinations and his strategic and tactical concepts. The original print edition has not been available for over a decade, but it is now being re-released as an eBook.

Grandmaster Repertoire 1 Mar 22 2022 Grandmaster Repertoire is a new series of high quality chess books based on the main lines, written by strong grandmasters. The aim is to provide the reader with a complete repertoire at a level good enough for elite tournaments, and certainly also for the club championship. Grandmaster Repertoire provides a repertoire to last a lifetime. Top GM Boris Avrukh charts a course towards an advantage with 1.d4. Avrukh is used to facing the best players in the world. In this book he presents an improved version of the repertoire that elevated him to the top 50, focussing on main lines with a kingside fianchetto. "1.d4 Volume One" covers the

openings after 1.d4 d4 2.c4, particularly the Catalan, Queen's Gambit Accepted, Semi-Slav, Slav, and other Queen's Gambit lines.

Queen Pawn Dec 31 2022 Play Queen Pawn with 1.d4 d5. Enjoy classical openings. Learn to win the center. Improve your control of the chess board. Player profiles include Gary Kasparov, Jan Timman, Walter Browne, Robert Hubner, Zoltan Ribli, Ljubomir Ljubojevic, Tony Miles, and Ulf Andersson. 8 halftones. 108 figures.

The Chebanenko Slav According to Bologan Sep 27 2022

Chebanenko's move 4?a6 in the Slav Defence has grown into one of the main systems for Black as it is an extremely flexible and almost universal weapon against the Queen's Gambit. The Chebanenko Slav is very popular among top chess players, and club and internet players like it as well, because it offers Black solidity and active counterplay in all lines. Victor Bologan is a world-class chess player, writes in a very accessible style and has included many tips, tests and tools.

Complete Chess Player Feb 06 2021 Generations of chess players have grown up on Fred Reinfeld's books. He has a way of reducing the most intricate, complicated combinations to their basic components. Absorb the material included in this volume and you will play chess at a fairly high level. Or read through it all and enjoy Fred's masterful explanations. In either case, you will be entranced by his enthusiasm for the intricate relationships the pieces experience in the context of a game.

Queen's Gambit Declined May 31 2020 In this book Grandmaster Sadler explains the ideas behind the Queen's Gambit Declined, one of Black's most dependable replies to the queen's pawn. He discusses all of the major variations in popular practice, explaining the key plans and ideas and highlighting important recent developments. Written by Grandmaster Matthew Sadler, one of the world's top young players, this book offers a full explanation of both the latest theory and important thematic ideas and covers the ever-popular Queen's Gambit Declined. (6 1/4 x 9 1/4, 176, pages, b&w illustrations)

The Double Queen's Gambit Feb 18 2022 Alexey Bezgodov provides a complete chess opening repertoire for Black against 1.d4. After replying with 1...d5, the former Russian Chess Champion advises you to take up the Double Queen's Gambit and

play 2...c5! against both 2. c4 and 2. Nf3. In The Double Queen's Gambit Black's attitude is as active and ambitious as that of White in the Queen's Gambit. This ambition may seem premature at first sight, but many strong grandmasters have already successfully played this system. After thoroughly investigating and analysing this opening, Bezgodov has gained a lot of experience in practical grandmaster play. The system not only turned out to be playable but also brought him success, and not just because of its surprise value. Bezgodov's conclusion is that there is no clear and compelling way for White to reach an advantage. The fresh ideas and the clear explanations in The Double Queen's Gambit may change your view on modern chess opening theory. Bezgodov provides dozens of exercises to test your understanding of his system.

Starting Out Oct 29 2022 The very closely linked Slav and Semi-Slav Defences are two of the most popular and combative openings that Black can play against the Queen's Gambit. They have provided the battleground for thousands of exciting encounters between the world's chess elite, including Garry Kasparov, Vishy Anand, Vladimir Kramnik, Alexei Shirov, and Alexander Morozevich. Players of all levels are attracted to the Slav and the Semi-Slav because they are solid, dependable defences that do, however, promise abundant possibilities for dynamic counterplay. In this easy-to-read guide, Grandmaster and openings expert Glenn Flear goes back to basics, studying the essential principles of the Slav and Semi-Slav Defences and their numerous variations. Throughout the book there are an abundance of notes, tips, and warnings to guide improving players, while key strategies, ideas, and tactics for both sides are clearly illustrated. *User-friendly layout to help readers absorb ideas *Concentrates on the key principles of the Slav and Semi-Slav *Ideal for improving players

Chess & Criminal Trials Aug 03 2020 The purpose of this book is to enlighten you on the similarities between the game of chess

and criminal trials. Chess and Criminal trials are divided into three elements, the opening, middle and end game. Chess masters know that they must start strong and end strong. As it is with chess, so it is with criminal trials. A strong opening and closing speech constitutes a good basis, but the advocate must also arrange his middle material of examination in chief and cross examination so as to bring maximum persuasion to bear on the fact finder.

Queen Pawn 1.d4 d5: Chess Opening Games - Second Edition Nov 29 2022 Play Queen Pawn openings via 1.d4 d5. Enjoy the 2.Bf4 London System and the 2.c4 Queen's Gambit with its many defenses. In this 2018 Second Edition Tim Sawyer shares 180 games and stories from his 45-year career and other games that interest him from masters, experts, and club players. This book covers Colle and London Systems, Queen's Gambits, Albin Counter Gambit, Slav Defence, Queen's Gambit Declined and others. Join the masters. Play Double Queen Pawn lines. This 2018 edition has updated commentary and an index of player names to the game numbers. This book covers all the openings that begin 1.d4 d5 - except NOT the Blackmar-Diemer Gambit. Tim covers that gambit in great detail in his other books. You can find checkmate themes in all these openings. To help you, related games are grouped together. You will find games full of interesting ideas from years of the author's own writing. They provide creative ideas and ways to improve. Learn to win the center. Improve your control of the chess board. This book is full of little-known lines as well as a review of the main lines. Consider new strategy and tactics and your interest will soar! Stay excited. Play chess and have fun!

The Winning Way Dec 27 2019 Teaches opening moves designed for early advantage, with diagrams, quizzes, and analyses intended for the advanced beginning and intermediate player.
