Simplified Signs: A Manual Sign-Communication System for Special Populations, Volume 1. Jul 02 2020 Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totalling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience – such as healthcare professionals, aid workers, military personnel, travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great

interest to researchers and educators alike.

My Life a Record of Events and Opinions Nov 25 2019 This early work by Alfred Russel Wallace was originally published in 1908 and we are now republishing it with a brand new introductory biography. 'My Life a Record of Events and Opinions' is an autobiography that details Wallace's experiences from schoolboy to scientist. It discusses his exploration of the Amazon, his lecture tour of America, and many other interesting periods of his life. Alfred Russel Wallace was born on 8th January 1823 in the village of Llanbadoc, in Monmouthshire, Wales. Wallace was inspired by the travelling naturalists of the day and decided to begin his exploration career collecting specimens in the Amazon rainforest. He explored the Rio Negra for four years, making notes on the peoples and languages he encountered as well as the geography, flora, and fauna. While travelling, Wallace refined his thoughts about evolution and in 1858 he outlined his theory of natural selection in an article he sent to Charles Darwin. Wallace made a huge contribution to the natural sciences and he will continue to be remembered as one of the key figures in the development of evolutionary theory.

Colours Oct 17 2021 This program includes a series of Honey Ant Readers, written by Margaret James, illustrated by Wendy Paterson and edited by Rosemary Butler, which were developed in consultation with Indigenous elders in Alice Springs, and with their full support. The HAR program was motivated by a desire to improve the literacy levels amongst Indigenous students, particularly those in remote areas, and to compensate for the lack of appropriate early reading material for them. Its purpose is to assist Indigenous-language speakers (including Aboriginal English speakers) in Central Australia with their early print literacy learning.

War Slang Apr 22 2022 From the homegrown "boodle" of the 19th century to current "misunderstandistan" in the Middle East, America's foremost expert on slang reveals military lingo at its most colorful, innovative, brutal, and ironic. Author Paul Dickson introduces some of the "new words and phrases born of conflict, boredom, good humor, bad food, new technology, and the pure horror of war." This newly updated reference extends to the post-9/11 world and the American military presence in Iraq and Afghanistan. Recommended by William Safire in his "On Language" column of The New York Times, it features dictionary-style entries, arranged chronologically by conflict, with helpful introductions to each section and an index for convenient reference. "Paul Dickson is a national treasure who deserves a wide audience," declared Library Journal. The author of more than 50 books, Dickson has written extensively on language. This expanded edition of War Slang features new material by journalist Ben Lando, Iraq Bureau Chief for Iraq Oil Report and a regular contributor to The Wall Street Journal and Time. It serves language lovers and military historians alike by adding an eloquent new dimension to our understanding of war.

Wilderness Medicine E-Book Oct 29 2022 Quickly and decisively manage any medical emergency you encounter in the great outdoors with Wilderness Medicine! World-renowned authority and author, Dr. Paul Auerbach, and a team of experts offer proven, practical, visual guidance for effectively diagnosing and treating the full range of emergencies and health problems encountered in situations where time and resources are scarce. Every day, more and more people are venturing into the wilderness and extreme environments, or are victims of horrific natural disasters...and many are unprepared for the dangers and aftermath that come with these episodes. Whether these victims are stranded on mountaintops, lost in the desert, injured on a remote bike path, or ill far out at sea, this

indispensable resource--now with online access at www.expertconsult.com for greater accessibility and portability-- equips rescuers and health care professionals to effectively address and prevent injury and illness in the wilderness! This textbook is widely referred to as "The Bible of Wilderness Medicine." Be able to practice emergency medicine outside of the traditional hospital/clinical setting whether you are in remote environments, underdeveloped but highly populated areas, or disaster areas, are part of search and rescue operations, or dealing with casualties from episodes of extreme sports and active lifestyle activities. Face any medical challenge in the wilderness with expert guidance: Dr. Auerbach is a noted author and the world's leading authority on wilderness medicine. He is a founder and Past President of the Wilderness Medical Society, consultant to the Divers Alert Network and many other agencies and organizations, and a member of the National Medical Committee for the National Ski Patrol System. Handle everything from frostbite to infection by marine microbes, not to mention other diverse injuries, bites, stings, poisonous plant exposures, animal attacks, and natural disasters. Grasp the essential aspects of search and rescue. Respond quickly and effectively by improvising with available materials. Improve your competency and readiness with the latest guidance on volcanic eruptions, extreme sports, splints and slings, wilderness cardiology, living off the land, aerospace medicine, mental health in the wilderness, tactical combat casualty care, and much more. Meet the needs and special considerations of specific patient populations such as children, women,

elders, persons with chronic medical conditions, and the disabled. Make smart decisions about gear, navigation, nutrition, and survival. Be prepared for everything with expanded coverage on topics such as high altitude, cold water immersion, and poisonous and venomous plants and animals. Get the skills you need now with new information on global humanitarian relief and expedition medicine, plus expanded coverage of injury prevention and environmental preservation. Get guidance on the go with fully searchable online text, plus bonus images, tables and video clips - all available on ExpertConsult.com.

Mistress Masham's Repose Aug 03 2020 Ten-year-old orphan Maria lives in her ancestors' crumbling mansion, with warm-hearted Cook and the eccentric Professor as her only friends. Exploring the grounds one day, Maria discovers a wild, half-forgotten island in the

middle of a neglected lake - and an extraordinary secret. For the island is home to a community of tiny people - the Lilliputians that Gulliver first met on his famous travels. But as Maria grows closer to her new friends, her own life is in grave danger. Her wicked governess and the cruel vicar are plotting to steal her rightful inheritance - and they will stop at nothing. How can Maria keep the Lilliputians safe, while protecting herself? A timeless classic from the author of *The Sword in the Stone*, with an introduction by Anne Fine.
