Women Without

Wombs:

Lamentation of the

Childless is a

collection of poems

that I wrote after

undergoing

hysterectomy

myself. I met fellow

Black ladies who

had womb

problems. Some  
had cancer, some  
had fibroids, some  
had conception and  
problems. There is  
such fear, so little  
knowledge about  
womb disease out  
there. Some  
married women had  
challenges of their  
husbands cheating  
or even divorcing  
these tormented  
women. To remove

a womb amongst some of us Africans it's still a taboo thing. The woman is called names. One Zimbabwean said in her area the woman is called "a mine". There is this perception by some men that when a woman remove her womb she has a vacuum inside - hence the name mine - a deep emptiness. I'm not a Doctor neither am I talking from the medical point of view but based on experience. One woman was advised to lie to her husband to tell him "the Doctors found some problem in my stomach and had to operate on me". She could not say "I had my womb removed because I was sick". The unwise husband

would have walked out and looked for a woman with a womb. Some women who have bleeding problem suffer double pain, the sickness and the adulterous husband who will go and find a healthy prostitute who just want his money or who wants a man to grow her four children from four different father sometimes fathers of four different races and four different countries. (I'm not judging but get angry at these kinds of evil). While I was in hospital some women died of cancer because the Doctors could not help them - they patients went when the cancer have already affected other parts of the

stomach. It's painful to be called "A Woman Without A Womb" as if the woman is no longer complete. I wrote these poems based on my experience and that of some women I met. Katalay left me in 2012 when I heavy bleeding. What mattered to him was him and my wealth that he wanted. I bled heavily that I did not use normal sanitary pads but used baby nappies instead. It was difficult for me to have my womb removed. In 2018 I started to bleed heavily and lost blood. I went to the man of God, an Afrikaner Apostle and he seek God about my issue. God revealed the "knots" - fibroids in

my womb. When the man of God told me I must remove my womb I was not prepared to. Why? It's not accepted among majority of Africans. The more I fought this thought the more I bled. I was very weak and in pain most of the time. When the scan was done, well the fibroids grew for the second time. God revealed where the womb problem in my family started - occult of over 100 years ago by my ancestors. I don't give a blanket answer that all womb problems are caused by occult, mine was. I've seen women suffer womb related disease.

**Mystery Behind the Womb** Nov 24 2019 THE MYSTERY BEHIND THE WOMB is a book that brings to light a very sensitive subject matter which is basic but rarely discussed. It reveals the very essence of a treasure-THE WOMB- that God has endowed women and humanity with. Though it is natural that only women have the womb as part of their anatomy, men also enjoy a lot of benefit from it, knowingly or unknowingly. According to Matthew 6:21, "...where your treasure is, there your heart will be also." By implication, since

women carry a treasure that is so precious to humanity, they are supposed to be cherished. However, due to ignorance, people have all sorts of wrong perceptions about women. This book sets out to enlighten you on God's value for women, which will enable you debunk the wrong perceptions and rather appreciate them. On the other hand, the womb, which is a treasure to humanity, is an object of attack to Satan. Since he never wants to witness the happiness of human beings, especially the children of God, he never ceases to attack the womb bearers-WOMEN. By the time you

Adams crafts a subtle new response to the controversies surrounding reproductive freedom and the implications of medical technology. She explores a spectrum of competing visions of childbearing, from misogynistic

nightmares of matriarchal control to feminist utopias. Firmly rooted in political reality, Adams offers innovative answers to the questions posed by the intimate interconnections, and the perceived conflicts, between fetus and mother, individual and collective.

04 2020 This study provides an accessible, informative and entertaining introduction to women's sexual health as presented on the early modern stage, and how dramatists coded for it. Beginning with the rise of green sickness (the disease of virgins)

from its earliest reference in drama in the 1560s, Ursula Potter traces a continuing fascination with the womb by dramatists through to the oxymoron of the chaste sex debate in the 1640s. She analyzes how playwrights employed visual and verbal clues to identify the sexual status of female characters to engage their audiences with popular concepts of women's health; and how they satirized the notion of the womb's insatiable appetite, suggesting that men who fear it have been duped. But the study also recognizes that, as these dramatists were fully aware, merely by bringing

### *The Vagina*

*Chronicles* Apr 29 2020 Mitochondrial Eve: the womb of man, the blossom of the bloom, the cataclysmic feminine creed, and the royal relatives of the reflexive universe. She is the mother to Isis, who actualized the bloodline pedigree, "know thy self." The very right thinking conversion which paradigm into the central guiding light, which saw Isis bringing Osiris back from the death. This bequeathed a pyramid bequest within the constellations, which called forth Cleopatra. In rare

form, she came back as nature's blossoming supernatural expression, to instill the womb of man's defense and the ultra-connection with the solar of space systems. Once laid to shrine rest, the beast of man, Behemoth, struck upon the feminine creed, with a vampirism hunger to feast and feed. While seeing to the bloodletting of hump-backed chaos, man decreed the womb of man from humanities natural superiority courtship of sacred holy scripts and all social, economic, and political monoliths. The Haggard saw through man's carnal maze. From her own insight, hindsight, and

foresight, she was broken and bruised from the bygone medieval aged circus. She grew into her own nature and became the force of broken silence, which called all women from their medieval hovels and the perverse tyrants that caged them. She asked for them to erect their own Queendoms and become heroines in the *Vagina Chronicles*, that where yet to be scrolled. While pitching pails of water for man, at Eroten Egnotens well, where all women screamed about their perils, Gela and Europa answered the call the second they looked across the horizon. spontaneity and genuine bloom that held the essentials of speech and shielded with the first noted swaying of hips, colored lips, toes and finger tips. Knowing thy self and the fact they held up the source of refreshment, they founded "Erotica," known as the sport of Queens. This cemented a vagina dynasty. Their forbidden fruit, delectable nectar that was coated with wild flowers, was covertly augmented into fine dining arenas; seen as culinary arts new flavor that signaled the war of the age, which divided and began to conquer man. Catherine Christian, an A-list Hollywood actress and distant relative

of Europa, freed the angelic call of arms. This set all women free from the sick and twisted chains that bound them to man. She knew firsthand of the no excuse attitudes of men on fire that ruled above the silver line behind the velvet rope and deep in space, ten leagues beneath the sea, where man stood out of the reach of all laws and prying eyes. Catherine incited a modern day vagina war; the front line soldiers were heiresses of order that scribed the onset of the Third World War. This was said to be against America and a third world nation, when in truth it exploded between woman and man. The earth

was swallowed over night, when a lion of the royal lodge's head was severed, but not before he handed over a long range acoustic device, that was looted from the Sphinx in Egypt. It was used by an heiress at the world's summit, to see that all women were in tune and in one accord. Men in high positions saw women united for once as the watch counted down to a catastrophic end. King Jubelo, in the medieval bygone age struck to end the vagina conquest, which started chivalry and the celebration of open air love for the womb of man. He incepted the ring that cut into and killed off the womb of man's cosmic

quest that was positioned out of man's reach and above the clouds. He decreed, in the rings inception, that woman was to fall rightly behind man, forever in holy matrimony.

*Theology of The Womb* Apr 10 2021  
If it is true that God is a male, then His Divinity or Deity is expressed in His masculinity. Yet I am a woman, and there are parts of my body; such as my breasts, my vagina, and my womb that are telling a story about God that I have never learned or understood. This is an exploration of the significance of a womb that must shed and bleed before it can create. How will we engage our body which

cyclically bleeds most of our life and can build and birth a human soul? How will we honor the living womb, that lives and sometimes dies within us? This is a book about the theology found in the cycle of the womb, which births both life and death. Every day each one of us is invited to create, and every day we make a decision knowing that from our creation can come death or life. Women's voices have been silenced for a long time as society and the church has quieted their bodies. Will we courageously choose to listen to the sound of your voice, the song of your womb, and speak for the world to hear?

health for both sexes. From behavior and cognition to metabolism and response to chemicals and infectious organisms, this book explores the health impact of sex (being male or female, according to reproductive organs and chromosomes) and gender (one's sense of self as male or female in society). Exploring the Biological Contributions to Human Health discusses basic biochemical differences in the cells of males and females and health variability between the sexes from conception throughout life. The book identifies key research needs and

opportunities and addresses barriers to research. Exploring the Biological Contributions to Human Health will be important to health policy makers, basic, applied, and clinical researchers, educators, providers, and journalists-while being very accessible to interested lay readers.

In *Unwell Women* Elinor Cleghorn unpacks the roots of the perpetual misunderstanding, mystification and misdiagnosis of women's bodies, and traces the journey from the 'wandering womb' of ancient Greece, the rise of witch trials in Medieval Europe, through the dawn of Hysteria, to modern day understandings of autoimmune diseases, the menopause and conditions like endometriosis. Drawing on sacred traditions from ancient India, Tibet, Egypt, Gnostic Christianity, and Judaism, the practice of Womb Wisdom empowers women to become aware of the intuitive voice of the womb outside of pregnancy and the moon cycle to unlock this potent inner source for creativity, birthing the new conscious children, spiritual growth, and transformation not only for themselves but also for their male partners. The authors include exercises to clear the past, release toxic emotions,

open the womb's energetic pathways, activate the sacred sensual self, bring balance to relationships, and harness creative potential. Including intimate, individual stories of women experiencing the opening of the womb, this book also explores the forgotten sacred sites of the womb around the world as well as how the womb's energies are crucial to birth a new civilization in the spiritual shift of 2012. The accompanying 45-minute CD includes a soundscape to assist in the awakening of these creative forces.

**Journeys of a Wombman** Aug 14 2021 A wombman is not a term assigned to only women

who've given birth. You can be taken back to the womb by doulaship, by death of a loved one, or by your own meditation of going back to your biological roots. This is the documentation of a struggle being overcome, the rural challenges a mother faces and the grace she defeats them with. We are no longer bound to the societal restrictions in the past. This is the uprising; the rewriting of her story. We are the seeds of the ancestors who didn't die. The journey never ends. Every step is a victory in itself.

the Tomb" imposes a demand to render thanks where credit is due. To begin with great thanks to God the Creator. Clearly the overall creation and particularly the universe are for man's sustenance and survival. Man owes thanks to fellow man especially in appreciation that "no man is an Island." The adage stating that "I am because we are and since we are therefore I am" speaks volumes in support of this. Indeed a human being needs another irrespective of color, gender, height, size, ability, personality etc. Our diversity in culture and imagination are there to supplement

and enrich one another in a splendid design by God to paint a beautiful harmony, integration and blending. Therefore each one, whatever the limitation, should be allowed to exist and live at least as a challenge and teaching aid available to me. I strongly believe that cosmetic differences should not be a cause for alarm, for no such aspects are irreversible, fortunate or unfortunate. There may be different experiences of early or late end of life on earth. Some spell disaster, sadness and vanity; others spell hope.

**The Knowing of Woman's Kind in Childing** Mar 29

2020 This study comprises a critical edition, using all the five extant MSS, of the most popular of the Middle English gynaecological texts deriving from the Latin Trotula-text. The Knowing of Women's Kind in Childing is a short fifteenth-century prose treatise which claims to be translated from Latin texts (or Latin and French, according to some manuscripts) that derive ultimately

from the Greek. It has a unique importance as it was written by a woman, for a female audience, and on the subject of women. The text considers women's physical constitution, what makes them different from men (primarily the possession of a womb) and, in particular, the three types of problem that the womb causes. That it was written for a female audience is made explicit in the Prologue where the writer explains that he has translated this text out of French and Latin into English because literate women are more likely to read English than any other language and

*Downloaded from [fashionsquad.com](http://fashionsquad.com) on January 31, 2023 by guest*

can then pass on the information it contains to illiterate women. More controversial must be the claim that this text was written by a woman. The text is a translation, no doubt by a man, but one of his ultimate sources was a text attributed to 'Trotula', in the Middle Ages believed to be the name of a midwife or gynaecologist from Salerno, who wrote extensively on women's ailments, childbirth and beauty care. Recent work shows that such a woman, probably named Trota, did exist and that she did write a gynaecological treatise, the Trotula or 'little Trota', which became closely associated

with two other texts not by her. All three however became very popular and were widely disseminated under her name. Large sections of The Knowing of Woman's Kind come, via an Old French translation, from a version of the Liber de Sinthomatibus Mulierum (the Cum auctor), the first element in this Trotula ensemble. **W.o.m.b. **Womb Man** Oct 28 2022 WOMB MAN: How I Survived Growing Up in a Booby-Trapped World When I was 32, I did something that made my father immensely proud. Spontaneously, he proclaimed "That's my boy!" Immediately realizing his error, he shot a panicked look at me, eyes wide with horror. Equally shocked

and catching my breath, I responded, "It's all right, Dad." And it really was all right. Because-for the first time in my life- I felt recognized for who I really was: a remarkable man. We never spoke of it again. But I began to wonder why it had taken Dad 32 years to "get" me. Or had it? Did he know something I didn't? And if he did, why was he keeping it a secret? Was I born intersex and surgically altered as an infant to meet gender norms (the default solution in the mid 50's for ambiguously-gendered babies, then called hermaphrodites)? Or am I naturally transgender-a man housed in a female

body? There are countless people like me who don't fit gender norms. Many feel the need to hide who they truly are, to exist without being scolded as strange or feared as foreign. You probably know several of them; they just might not trust you enough to tell you. Something needs to change. I hope my own story helps that happen. 2019 In almost all cultures males have been elevated to be all-powerful, all-knowing, imputed with attributes of a god, a burden far

beyond mortal abilities; a heavy load to carry - it's unfair. The term "man-kind" puts the collective concept of "male" as dominant, in control of all humans, in control of bodies and minds - an overwhelming responsibility. All humans are perceived as "man"-kind, but in reality, we are males and females, men, women (wombmen). No human is all powerful nor all-knowing. Daily, momentarily, society expects a man to make right decisions, have the right answers at hand. He's supposed to understand tax laws, how to fix the plumbing, fix the car, hit a homer, be a well-paid

executive and a patient, caring, all-wise Dad and husband. This happens only on TV. This perception of omnipotence of "man" is a burden - unrealistic. When a man seems "incompetent" - mortal, he's labeled "failure", "loser". Society covers up this perceived "failure" by sympathy, "Well, he's a good man anyway," "Well, he didn't have a chance," "Well, we need to be more patient..." We're chaffing the wound, encouraging division. Women, on the other hand, are encouraged, expected to set their needs aside to accommodate the man. When they don't, both men and women perceive

that independence as selfish and society becomes antagonistic - we take sides, divide. C. S. Lewis in "Mere Christianity", suggests humans were created with a built-in sense of right and wrong. The expression varies with the culture, but the sense is innate in all cultures. This sense is based in the need to cooperate, so the species will survive. Plato and Aristotle said the same thing, i.e., "Let's get along...it's the right thing." However, the media encourages division and antagonism between males and females; we're not cohesive - we're "us" against "them", divided by race, gender, politics,

religion and nationality. This is profitable for the media but destructive to cultures and families. We cannot survive divided. Perhaps the basic dividing factor is religion, not "God". Organized religion is often warped; it teaches that "man", solely, is the representative of God. The "man" assumes control of all life. "Woman" is perceived as inferior. She is then forcibly encumbered by pregnancy, so she is easily controlled. Let's dispel the myth that God is a man and a man is God. It ain't necessarily so... Each man needs inner peace, self-appreciation, - all

attributes of Popeye, an endearing, homely, self-accepting, individual. Popeye is Everyman - every "hu-man". Since this book is written for men I'll be talking directly to them to explain men's behavior from a woman's point of view. No doubt this view will be skewed; any clarifying, exchange of perception, is welcome. We need each other.

The Void and the Womb Dec 18 2021  
Norman, an American living in California, experiences childhood trauma when his parents separate. As a teenager, he is deeply affected by the fear of socialism, communism, and

the potential for a nuclear war between the US and the USSR. Norman is also unnerved by the racial tension in his country and devastated by the uncertainty of the future in a materialistic society. Norman longs for a mental state devoid of confusion. He desires a complete understanding of the philosophical messages that he had only perceived as words and concepts before, but had never truly experienced. He leaves his motherland in search of spirituality and self-realization and settles in India where he encounters numerous holy

men. Norman becomes confused by the countless paths and approaches available to him. Finally, he finds a Guru who shows him the path to enlightenment. Norman attains spiritual status and assumes a new name Swami Aniketananda. His prime disciple, Vinayananda becomes instrumental in building a large spiritual institution that attracts universal attention. *In My Mother's Womb* Mar 09 2021 *Convicted in the Womb* Jul 25 2022 A radical civil rights activist traces his transition from felon to a self-educated black leader, outlines a program for self-

Spiritual Connections, is not the most important thing. What is important is that God's people began to feel an Intimacy with Him again; they begin to Know Him again; they began to feel His presence again; and indeed many who thought that their 'wombs' were barren are now learning that it is God who brings to the birth. Intimacy with God is a gift. A gift is something voluntarily given without compensation. He desires to give us a gift and we in turn desire to give Him the gift of ourselves.....and.... He certainly woos us much more than we even think to woo Him. For we need not woo our

Savior; He already demonstrated His love at the cross. When Bathsheba's son died, how did David comfort her? He lay with her. Yes, she bore then a son....so, sir, as we lay with God in moments of deep intimacy something is conceived within us which we are to birth. Strictly speaking in the spiritual now, please understand that God penetrates our hearts and that is part of the intimacy. You carry the garment but you won't wear it. You refuse to put it on ~ for in doing so, you are cloaked with the responsibility of the mantle. You lay your cloak down to be stepped on, trampled upon, in the assumption of

keeping others clean ~ yet you disrespect the garment in doing so. Do not lay down your gift to be walked upon. Do not be deceived into allowing others to trample and dishonor that which I have given you to wear and place upon you. Carry the garment no longer ~ yet wear the garment I have provided, supplied, selected and hand fitted for you. Allow not man to alter the garment ~ allow only my provision and revision ~ for I AM God sayeth the Lord and I call my men and women out ~ I display them and clothe them in righteousness for they are to resemble and represent me. Made in my image,

[Wombs and Alien Spirits](#) Jul 01 2020

Based on nearly two years of ethnographic fieldwork in a Muslim village in northern Sudan, *Wombs and Alien Spirits* explores the zâr cult, the most widely practiced traditional healing cult in Africa. Adherents of the cult are usually women with marital or fertility problems, who are possessed by spirits

very different from their own proscribed roles as mothers. Through the woman, the spirit makes demands upon her husband and family and makes provocative comments on village issues, such as the increasing influence of formal Islam or encroaching Western economic domination. In accommodating the spirits, the women are able metaphorically to reformulate everyday discourse to portray consciousness of their own subordination. Janice Boddy examines the moral universe of the village, discussing female circumcision,

personhood, kinship, and bodily integrity, then describes the workings of the cult and the effect of possession on the lives of men as well as women. She suggests that spirit possession is a feminist discourse, though a veiled and allegorical one, on women's objectification and subordination. Additionally, the spirit world acts as a foil for village life in the context of rapid historical change and as such provides a focus for cultural resistance that is particularly, though not exclusively, relevant to women. *Man with a Womb (Paperback)* Jan 27 2020 A dominant lesbian shares her life and dating

experiences. In *Man with a Womb*, she explains how she attempted to hide her homosexuality during her elementary and high school years by appearing to be promiscuous to male classmates. She gives details of her Atlanta childhood, her brief heterosexual marriage, a 4-year domestic partnership full of infidelity and betrayal and the numerous women that she would date in Atlanta from 1995 to 2006. *Man with a Womb* educates the heterosexual community on the challenges and similarities of living life as a dominant lesbian. Heterosexual men

can actually relate to the dating experiences in this book. *Man with a Womb* is also to inspire and inform younger gays and lesbians that there are roles required of them from the people that they date. Also, that there is such a thing as being dubbed, "too gay"! "In Thomas's skilled hands, and in her unabashed love of story-telling, intimate events in Kenya help us think more clearly and more critically about Africa in the twentieth century. The politics of the

womb are at the core of the colonial experience and of colonial politics.... Africans struggled amongst themselves over the regulation of reproduction, and these layers of intimate strife, and the policies and protests emanating from London and mission hospitals and African homesteads, give us something we haven't had before-- a gendered and transnational colonial history."—Luise White, author of *Speaking with Vampires: Rumor and History in Colonial Africa* *Policing the Womb* Feb 26 2020 In *Policing the Womb*, Michele Goodwin explores how states abuse laws and

infringe on rights to police women and their pregnancies. This book looks at the impact of these often arbitrary laws which can result in the punishment, incarceration, and humiliation of women, particularly poor women and women of color. Frequently based on unscientific claims of endangering a fetus, these laws allow extraordinary powers to state authorities over reproductive freedom and pregnancies. In this book, Michele Goodwin discusses real examples of women whose pregnancies have been controlled by the law and what has led to the United States being the deadliest
