Let's Stick Together Jun 20 2021 Are you a new parent, or about to become one? Learn three simple habits that will keep love alive and protect your relationship against the pressures that parenting brings. In the excitement and exhaustion of becoming parents, the first thing that can get overlooked is your relationship. You might spend less time together, argue over little things, drift apart... In the UK, one in five children see their parents separate before the end of their first year at school. One in two children experience family breakdown before they finish school. But it doesn't have to be like this. Most family breakdown is avoidable. In *Let's Stick Together*, relationship educator and father of six Harry Benson guides you through three simple habits that research shows make or break new mums and dads. Illustrated with real-life examples from Harry's own back-from-the-brink marriage and those of other couples, *Let's Stick Together* highlights simple principles that will make your relationship the best it can be and ensure you don't become just another statistic.

Power Relationships Aug 23 2021 *The Relationship Laws that Drive Success* There are powerful but invisible laws that determine whether your relationships –with your clients, colleagues, and friends–will thrive or wither. These relationship laws are ever-present. When you align with them, the results are dramatic. Your network will grow rapidly. You'll be seen by

clients as a trusted partner rather than an expense to be managed. And you'll find the people around you eager to help you succeed. When you ignore the laws, however, your efforts will falter. Relationship building will seem like very hard work. *Power Relationships* gives readers a unique, entertaining guide to relationship success at work and in life. Each of the 26 laws is illustrated and explained using a compelling, real-life story that shows how to implement it. The second section of the book presents 16 common relationship challenges with specific solutions. You'll read about: The top Citigroup executive whose relationship with a CEO was changed forever on a business trip that exploded into chaos, and how you can use the same principle to deepen your own relationships. The philanthropist who, on the verge of being mugged in a dark parking lot, learns how his actions have had an unimaginable ripple effect across several generations. How one of the authors flew halfway around the world and used Law 18—"Make them curious"—to turn a make-or-break, five-minute meeting with a top executive into a long-term relationship. The chance encounter on an airplane with a famous actor that revealed a simple but profound truth. It's Law 25: "Build your network before you need it." Sobel (author of *Clients for Life*, *All for One*, and *Power Questions* (with Panas)) and Panas (author of *Asking and Supremely Successful Selling*) have sold over half a million books and are the leading authorities in their field. *Power Relationships* is a unique, road-tested guide to relationship success.

The Routledge Handbook on Responsibility in International Relations Jan 16 2021 What does responsibility mean in International Relations (IR)? This handbook brings together cutting-edge research on the critical debates about responsibility that are currently being undertaken in IR theory. This handbook both reflects upon an emerging field based on an engagement in the most crucial theoretical debates and serves as a foundational text by showing how deeply a discussion of responsibility is embedded in broader questions of IR theory and practice. Contributions cover the way in which responsibility is theorized across different approaches in IR and relevant neighboring disciplines and demonstrate how responsibility matters in different policy fields of global governance. Chapters with an empirical focus zoom in on particular actor constellations of (emerging) states, international organizations, political movements, or corporations, or address how responsibility matters in structuring the politics of global commons, such as oceans, resources, or the Internet. Providing a comprehensive overview of IR scholarship on responsibility, this accessible and interdisciplinary text will be a valuable resource for scholars and students in many fields including IR, international law, political theory, global ethics, science and technology, area studies, development studies, business ethics, and environmental and security governance.
